AUTOTEST Mini Plus Brake Meter

Product Information

Specifications

- Product Name: AutoStop Mini Plus
- Category: Vehicle Testing & Diagnostic Products
- Battery Type: Soldered on circuit board
- Calibration Frequency: 1 Year

Product Usage Instructions

1. User Manual

The user manual is stored inside the USB drive that comes with the unit. It can also be downloaded from the AutoTest Product website.

2. Changing Daylight Saving Time

To change daylight saving time, go to View Clock and press number 1 to toggle daylight saving. If the time is incorrect, contact customer support for assistance.

3. Battery Replacement:

The batteries are soldered on the circuit board and cannot be changed by the user. If the batteries are faulty, please send the unit to our service department for replacement.

4. Charging the Unit

When connecting the unit to the charger, it is normal for it to turn off. Make sure to turn off the meter before charging it.

5. Calibration

Calibration of the Mini Plus is recommended once a year. The calibration due date is displayed on the screen and on every test printout.

FAQ

- **Where is the user manual?**

The user manual is stored inside the USB drive that came with the unit. It can also be downloaded from the AutoTest Product website.

- **How to change daylight saving time?**

To change daylight saving time, go to View Clock and press number 1 to toggle daylight saving. Contact us if you encounter any issues.

- **Can I change the batteries?**

No, the batteries are soldered on the circuit board. Please send the unit to us for battery replacement.

- **Why does the unit turn off once connected to the charger?**

This behavior is normal. Remember to turn off the meter before charging it.

- **I need the datalogging software for AutoStop Mini, not Mini Plus.**

The AutoStop Mini has been replaced by the Mini Plus, and we no longer have a product page for it. Please contact our service department for a download link.

FAQ

AutoStop Mini Plus

Where is the user manual?

The user manual is stored inside the USB drive that came in with the unit. The manual can also be downloaded on AutoTest Product website.

How to change daylight saving time?

Go to View Clock? and Press number 1 to toggle daylight saving. If the time is out, please contact us.

Can I change the batteries?

No. The batteries are soldered on the circuit board. Please send the unit to us if your batteries are faulty.

Why does the unit turn off once connected to the charger?

This is normal. Please turn off the meter before putting it to charge.

I need the datalogging software for the AutoStop Mini, not the Mini Plus and I can't find it on your website.

The AutoStop Mini has been superseded by the Mini Plus and we no longer have a product page for it. Please contact our service department and they will arrange a download link for you.
