RGB PARTY STRING

Contents

Safety instructions

Before using the string, read the instruction / safety manual carefully and keep it for future reference.
Risk of electric shock and overheating!
Improper use of the light string may result in electric shock or fire.

1. Place and insert the string at the required place.
2. Check that the network voltage corresponds to the the power adapter' input voltage.
3. Connect the string to a well accessible socket so that you can immediately disconnect it from the network in the

event of a problem.

4. Do not operate the string while it is still in the packaging.

5. Do not operate the string while it is still rolled up.

6. Be careful not to damage the insulation.

7. Use the light string only with the included AC adapter.

8. Do not operate the string with an external dimmer.

9. Do not operate the light string if it is damaged or if the power cord or adapter is defective.

10. If the string's cable is damaged, it must be replaced by the manufacturer or a professional in order to avoid a hazard.

Improper use of the light string can result in injury or short circuit. Never immerse the product in water or any other liquid!

Linkability: With the help of the waterproof connector at the end of the string of lights, the product can be classified, can be connected with a maximum of 3 units. Loosen the waterproof connector at the end of the string, then remove the AC adapter from the string you want to connect , by loosening the connector in front of it. After this, you can connect the strings. Tighten the connector firmly to keep the product waterproof.

Clean the string at regular intervals with a detergent-free (dry) cloth.

Waste equipment must not be collected separately or disposed of with household waste because it may contain components hazardous to the environment or health. Used or waste equipment may be dropped off free of charge at the point of sale, or at any distributor which sells equipment of identical nature and function. Dispose of product at a facility specializing in the collection of electronic waste. By doing so, you will protect the environment as well as the health of others and yourself. If you have any questions, contact the local waste management organization. We shall undertake the tasks pertinent to the manufacturer as prescribed in the relevant regulations and shall bear any associated costs arising.
