AVILOO B2B Flash Test

Short instructions

Short instructions for the AVILOO FLASH Test – test the drive battery in 3 simple steps

CAUTION:

Make sure the vehicle is not charging.

FLASH TEST SET-UP

- Open the driver's door (leave it open during the test).
- VW, Skoda, Cupra and Seat Models: unlock the hood before plugging in the AVILOO Box (it is not necessary to open it).
- Plug the AVILOO Box into the OBD-2-port.
- Start the vehicle and leave the vehicle in park mode so that the systems necessary for the test remain active.
- Turn off the heating and air conditioning.
- TIP: The AVILOO WebAPP helps you locate the OBD-2-port in the vehicle.

PERFORM FLASH TEST

- Wait for the yellow flashing one LED indicating that the AVILOO Box is ready for the Flash Test.
- Fasten the driver's seatbelt to keep the systems necessary for the test active.
- Note for all Tesla Models: switch the vehicle to drive mode and keep your foot on the brake to prevent the vehicle from moving (due to the lack of an "ignition").
- Wait for the solid green LED, which indicates that the FLASH Test is complete.

END OF FLASH TEST

- Turn off the vehicle.
- Unbuckle the seat belt.
- Unplug the AVILOO Box.
- Close the driver's door and, if necessary, the hood.
- The AVILOO FLASH Test Report is sent by email to the email address stored for this AVILOO Box.

Please note:

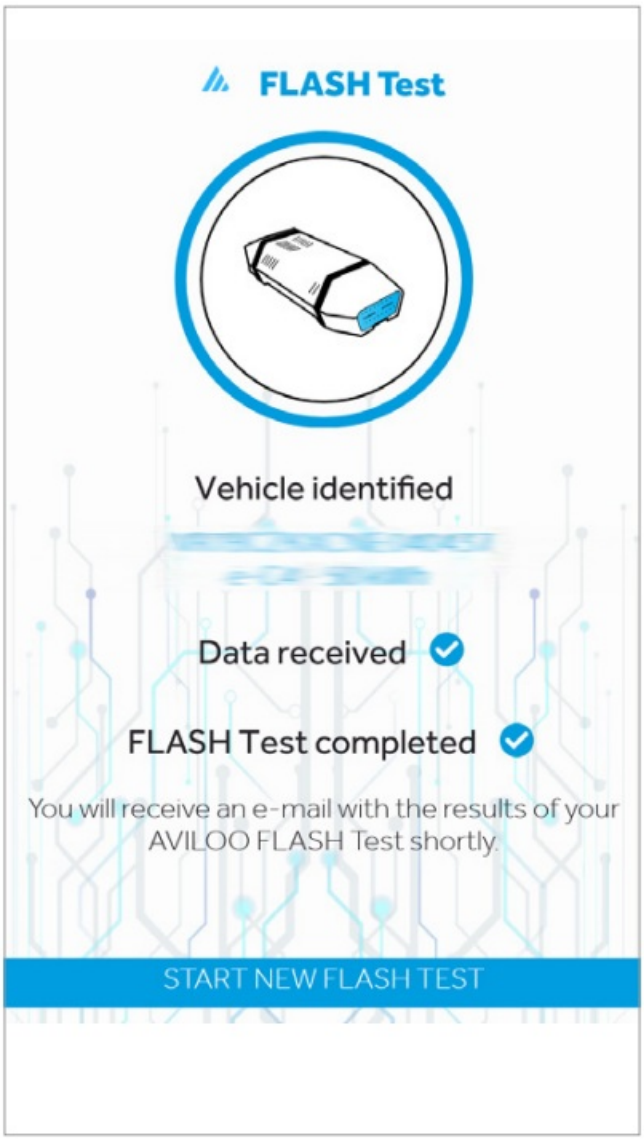
Changes or modifications not expressly approved by Aviloo could void the user's authority to operate the equipment. This is a mobile device and the user must ensure that they maintain a distance of 20 cm during operation.

AVILOO BOX LED-DISPLAY

- Flashing blue: indicates that the box is booting up
- Yellow light: test in progress.
- If red lights up: FLASH Test failed (see notes at bottom right).
- Flashing green: data transfer.

- Greenlight: Test completed.

DISPLAY IN THE AVILOO WEB APP



IMPORTANT NOTES:

- To keep the software up to date, leave the box plugged into the power supply when not in use.
- Red LED means: FLASH Test failed.

Take the following measures:

1. Check at **https://aviloo.link/database** whether the vehicle can be tested.
2. Repeat the FLASH Test according to the instructions.
3. Contact AVILOO Customer Support.

FAQ

- **Q: What should I do if the FLASH Test fails?**
  - A: If the FLASH Test fails, refer to the notes at the bottom right of the AVILOO box for troubleshooting steps. If issues persist, contact AVILOO Customer Support.
