Configure Internet Access

- Enter <http://fritz.box> in a web browser.
The user interface of the FRITZ! Box appears.
- Enter the FRITZ! Box password when prompted to do so, and then follow the wizard until configuration has been completed.
The internet connection is configured and you can surf the web with the connected devices.

Connect Telephones by Cable

You can connect telephones to the FRITZ! Box by cable.

1	Telephone with a TAE plug	Fon 1
2	Telephone with RJ11 plug	Fon 1, Fon 2
3	Telephone with TAE plug on TAE adapter	Fon 1, Fon 2

During operation, only one of the two Fon 1 sockets may be used.

***also fax machines or answering machines**

AVM declares herewith that the device is compliant with the requirements and the rules in directives 2014/53/EU, 2009/125/EC, and 2011/65/EU. The long version of the declaration of CE conformity is available at en.avm.de/ce.

To improve the product and ensure safe operation on your connection, AVM uses diagnostic data where needed. This setting can be changed in the user interface under **Internet / Account Information / AVM Services**.
