**AXXESS AXBUCH6V-HK1 Backup Cam Adapter**

## Product Information

### Specifications:

- **Model:** AXBUCH6V-HK1
- **Compatibility:** Hyundai / Kia vehicles with NAV, i!D14-i!D17
- **Applications:** Various Hyundai and Kia models as listed in the manual

## Product Usage Instructions

### Tools Required:

Ensure you have all the necessary tools before proceeding with the installation.

### Important Notes:

Before starting the installation process, make sure all accessories, switches, climate control panels, and airbag indicator lights are connected. Do not remove the factory radio with the key in the on position or while the vehicle is running.

### Connections:

The AXBUCH6V-HK1 interface can be connected in two different ways:

1. To retain the factory backup camera to an aftermarket radio:
2. To allow an aftermarket camera to be added to the OEM screen:

**Note:** Disregard the loose Green/Purple wire as it will not be used in this application.

## INTERFACE FEATURES

- Retains the factory backup camera to an aftermarket radio
- Allows an aftermarket camera to be added to the factory screen
- Includes the AXCSD-6V 12-volt to 6-volt converter

## INTERFACE COMPONENTS

- AXBUCH6V-HK1 harness
- AXCSD-6V 12-volt to 6-volt converter

## APPLICATIONS

HYUNDAI		HYUNDAI (CONT)		KIA (CONT)	
Elantra	2017	Tucson	2016-2017	Optima	2016-2017
Elantra GT	2016-2017	Veloster	2016-2017	Sedona	2015-2017
Genesis Sedan	2016	<b>KIA</b>		Sorento	2016-2017
Santa Fe	2017	Cadenza	2017	Soul	2014-2017
Santa Fe Sport	2017	Forte	2017	Sportage	2017
Sonata	2015-2017	Niro	2017		

## TOOLS REQUIRED

- Wire cutter
- Crimping tool
- Solder gun
- Tape
- Connectors (example: butt connectors, bell caps, etc.)

**CAUTION!** All accessories, switches, climate controls panels, and especially air bag indicator lights must be connected before cycling the ignition. Also, do not remove the factory radio with the key in the on position, or while the vehicle is running.

## Connections to be made

The AXBUCH6V-HK1 can be connected two different ways

### To retain the factory back-up camera to an aftermarket radio:

- Connect the Black wire to chassis ground, and also to the Black wire of the AXCSD-6V.
- Connect the Red wire to the Blue/Red wire of the AXCSD-6V.
- Connect the reverse wire of the aftermarket radio, and the Blue/White wire of the AXCSD-6V, to a reverse wire.
- Connect the male Yellow RCA jack to the rear camera input of the aftermarket radio.

### To allow an aftermarket camera to be added to the OEM screen:

- Connect the Black wire to the aftermarket cameras ground wire.
- Connect the power wire of the aftermarket camera to accessory power.
- Connect the female Yellow RCA jack to the aftermarket camera.
- Tape off and disregard the following (1) wire, it will not be used in this application: Red.
- Disregard the AXCSD-6V, it will not be used in this application.

**Note:** Disregard the loose Green/Purple wire, it will not be used in this application.
