- **Backlight Color:** Blue
- **Dimension:** 7.8 (L) x 18.3 (W) x 1.4(H) in.
- **Battery:** 2000 mAh Lithium-ion Rechargeable Battery
- **Warranty:** 1 Year Limited

FEATURES

The Azio KB510W computer keyboard has a number of features, including the following:

- **Connectivity via Wireless Transmission:**

Because it is equipped with Bluetooth technology, the keyboard supports wireless communication. This means that you can use it to connect to your computer or any other device that is compatible with it without the usage of cords.

- **Battery That Can Be Recharged:**

Because it has a rechargeable battery that is built right in, you won't have to be buying new batteries as often.

- **Backlight:**

You are able to type in low-light conditions thanks to the backlight on the keyboard, which also offers changeable brightness levels. This gives you the flexibility to personalize the look of your keyboard.

- **Keys for the Scissor Switch:**

The Azio KB510W makes use of scissor-switch keys, which allow for a low-profile design as well as a silent experience when typing.

- **Layout for Full-Size Paper:**

It has a full-size layout with a numeric keypad, which ensures that all conventional keys are present for quick and easy data entering and typing.

- **Multi-Device Pairing:**

The keyboard has the capability of pairing with many devices, enabling you to connect and switch between a variety of devices in a smooth manner.

- **The Controls for the Media:**

The ability to conveniently control audio playback, including adjusting the volume, playing and pausing the music, and skipping tracks, is enabled by dedicated media control keys.

- **Compatibility:**

Because the Azio KB510W is compatible with a variety of operating systems, including Windows, Mac, and Linux, it can be used with a variety of computer configurations and is therefore quite versatile.

- **Design That Is Both Slender and Ergonomic:**

It has a small footprint and an ergonomic design, making it easy for your wrists to type for longer periods of time while also giving a comfortable typing experience overall.

- **Wireless Signal Strength:**

The wireless range of the keyboard is roughly 10 meters (30 feet), which provides users with more freedom in terms of positioning and utilization.

- **Simple Plug-and-Play Configuration:**

It is easy to connect and begin using the Azio KB510W because its setup is as straightforward as plugging it in and turning it on; no additional software installation is necessary.

- **Indicator of the Remaining Battery Life:**

It provides a battery life indicator, which enables you to monitor the amount of charge that is still left in the battery and plan when you will need to recharge it.

- **Compatibility with Mobile Equipment:**

The keyboard's usability is expanded beyond desktops because it is compatible with mobile devices such as smartphones and tablets that allow Bluetooth communication.

- **Durable Construction:**

The Azio KB510W is built with long-lasting materials that can survive regular usage and deliver dependable performance for a considerable amount of time.

- **Keyboard Shortcuts:**

Productivity could be increased as a result of the presence of specialized shortcut keys that provide instant access to frequently used functions or apps.

- **Adjustable Tilt:**

You may be able to modify the angle at which you type on the keyboard using the tilt legs, which would provide for a more comfortable experience overall.

- **N-Key Rollover:**

It is possible that it has an N-key rollover, which indicates that it may register numerous keystrokes at the same time. This feature is perfect for gaming or typing quickly.

- **Automatic Function to Sleep and Wake Up:**

It's possible that the keyboard has a function that puts it to sleep when it hasn't been used for a specific amount of time in order to save power and extend its battery life.

- **Functionality that is Improved:**

Additional capabilities including programmable macros, configurable profiles, and onboard memory for recording user preferences may be available on certain models of the Azio KB510W. These features may be found on certain models of the product.

- **Elegant Craftmanship:**

The aesthetic attractiveness of your workstation can be improved with the help of the Azio KB510W, which features a combination of contemporary and streamlined design components to create a more attractive whole.

FCC STATEMENT

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
