Introduction

The AZLNRMU Wi-Fi camera is wireless Wi-Fi light bulb camera. It can be easily installed in the bulb base of E27 (110V-240V). The bulb camera can be connected to Wi-Fi using the mobile App. It is simple to use and doesn't require any additional operations. When you first connect the bulb camera to the app, it will take some time about 40 seconds. The video quality of the camera is also good. It has the ability to provide a clear and high-quality picture even at night. It features a 1080P HD camera and intelligent night vision. This allows it to provide ordinary night vision as well as color night vision. This camera also provides remote viewing using the app and PTZ. This means you can control the viewing angle from anywhere and anytime you wish to using the mobile app. It allows you to have a 360-degree view, even of the blind spots using the app.

The AZLNRMU features a highly sensitive motion sensor. The motion can be detected by connecting the camera to Wi-Fi. Whenever, an object is moving in front of the camera, it will detect it and record the picture of the moving object. It will also send a notification through the App to Alert.

Another important feature of the camera is that it provides two-way audio. It comes with a built-in camera and speaker. This means you can have a conversation with the person in front of the camera and you. This camera can be used at home, school, office, mall, gas stations and warehouses.

How to install the Camera

- The camera features easy and wireless installation. It doesn't require any cord connection or extra drilling in to walls. Simply use a bulb base to install.
- You will require an ordinary E27 bulb base having a voltage of 110V-240V.
- Download the app named "YCC365" on to your mobile phone.
- Connect the router system to your app and set it up within a few minutes.

FREQUENTLY ASKED QUESTIONS

Do these security camera lightbulbs give off any actual light like a regular lightbulb?

The bulb camera has spotlights only, which means that the angle of light isn't very wide.
