Thank you

Thank you very much for buying this product. You are advised to read this user manual carefully before using this product. We sincerely hope this product will bring you a lot of convenient and fun while you are driving.

This product is car FM player . It uses a dedicated 5.0 high-performance Bluetooth module and a built-in high-quality MP3 decoder chip. It can wirelessly transmit the music in the disk and TF card to the car stereo, as long as your mobile phone supports Bluetooth function. After the connection is successful, you can send music to your car stereo through car FM. You can enjoy beautiful music without modifying your car. If there is an incoming call, it will automatically broadcast the caller number and answer it.

Then you can switch your incoming call to hands-free status, and continue to play music after the call, (make your driving safer, and enjoy music at the same time)

Description

Bluetooth mode:

1. Insert the product into the car cigarette lighter, match the FM frequency, turn on the Bluetooth of the mobile phone, search for the Bluetooth name: BT-CAR Kit, click on the connection and pairing is successful. You can listen to music or make calls.
2. When there is an incoming call, there is a voice prompt naming the caller's telephone number.

3. When call is coming, press the phone button to answer the call automatically.
4. If you want to reject the call, press and hold the phone button.
5. When you turn on the mobile phone GPS navigation, you can use the car's audio broadcast GPS navigation to make your driving more secure.

U Disk/TF/Bluetooth Mode

1. Insert the U disk, the car audio will automatically play the music in the U disk.
2. Insert the TF card, the car audio will automatically play the music in the TF card.
3. Long press the phone button to switch modes (U disk/TF/Bluetooth).
4. You can control the volume of the music sound through the rotary encoder, the best volume is 26, or you can control the volume through the car volume buttons.

FM function

1. If you want to change the FM frequency, short press the CH button to activate the frequency, When the display is flashing,, you can to quickly select the frequency through the encoder.
2. Switch songs, you can short twist the knob.
3. The frequency range of car MP3.

When the product is on, a frequency will appear on the display. In order to achieve the best sound quality, adjust the frequency of the car to an empty frequency and match the product frequency.

lighting function:

1. The lights of seven colors will flash cyclically by default when the product is turned on.
2. If you need a single color, you can switch the color of the light by pressing a short button.
3. The seven colors are: green, blue, red, light blue, light green, purple, blue and white.
4. If you need to turn off the colorful lights, press the button 8 times to turn off the colorful lights.

Charging function

1. This product supports PD fast charge, is compatible with QC3.0 fast charge function, supports blind plug function, blind plug will not burn the phone.
2. Maximum support 20W PD fast charge, (SV3A, 9V2.2A, 12V1.7A)
3. The charging ports are: TPC is PD, orange port is QC3.0, blank reading U port is 1A.

Power-off memory

When this product is powered off, it remembers the frequency that is used and the music in TF card or U disk that is played before the it is turned down. When this product is restarted again, it will continue play music that you listen to last time.
