## BALDWIN CA30103 Channel Flow EXO Air Elements

### Product Information:

The CA30103 and CA30104 Channel Flow EXO air elements are recently introduced by Baldwin Filters. These air

elements are designed to be installed in a housing to ensure proper filtration.

## Product Usage Instructions

1. Ensure proper installation by pushing down on the inlet side of the element.
2. Next, push down on the opposite side of the element until you hear the element snap into place.
3. Attach the housing lid and tighten all bolts. The lid should be tightened to the recommended torque.
4. Please note that if the element is not secured correctly, the housing lid will not close properly.

If you have further questions or need assistance, please call our Service Engineering Team at (308) 237-9729.

**WARNING:** These products can expose you to chemicals that are known to the State of California to cause cancer, birth defects, or other reproductive harm. For more information, visit [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

## Installation Instructions

CA30103 and CA30104

Baldwin Filters recently introduced the CA30103 and CA30104 Channel Flow EXO air elements. When installing the CA30103 or CA30104 element in the housing, the element may appear to be installed properly.

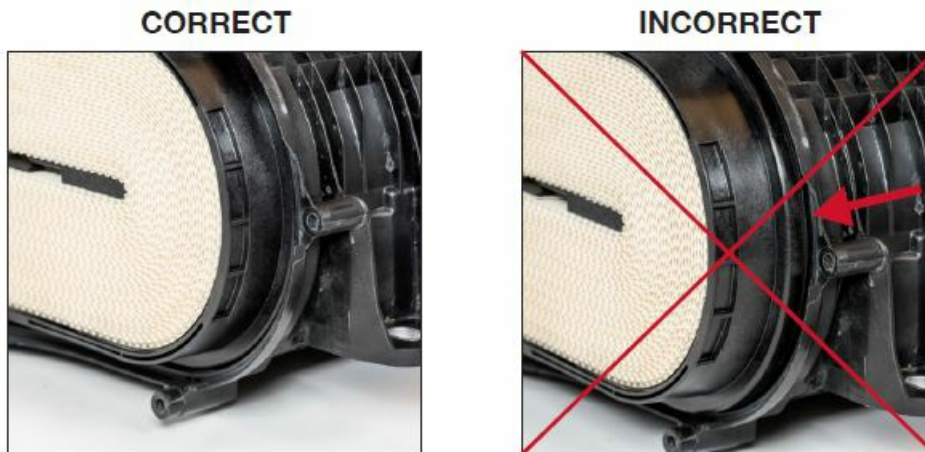

However, it is important that you follow the steps below to guarantee the element is in the correct position and the housing lid is attached and sealed properly.

1. ensure proper installation, first push down on the inlet side of the element.
2. Next, push down on the opposite side of the element until you hear the element snap into place.
3. Attach the housing lid and tighten all bolts.

(Lid should be tightened to torque specified on lid)

#### PLEASE NOTE:

If the element is not secured correctly, the housing lid will not close properly.

If you have further questions, please call our Service Engineering Team at (308) 237-9729.

**WARNING:** These products can expose you to chemicals, including Diisononyl Phthalate, Carbon black extracts, Nickel, 1,3 Butadiene, Ethylene Oxide, Epichlorohydrin, which are known to the State of California to cause cancer, and Bisphenol-A, Ethylene Glycol, Ethylene Oxide, 1,3 Butadiene, Epichlorohydrin, which are known to the State of California to cause birth defects or other reproductive harm.
