DEVICE FUNCTION

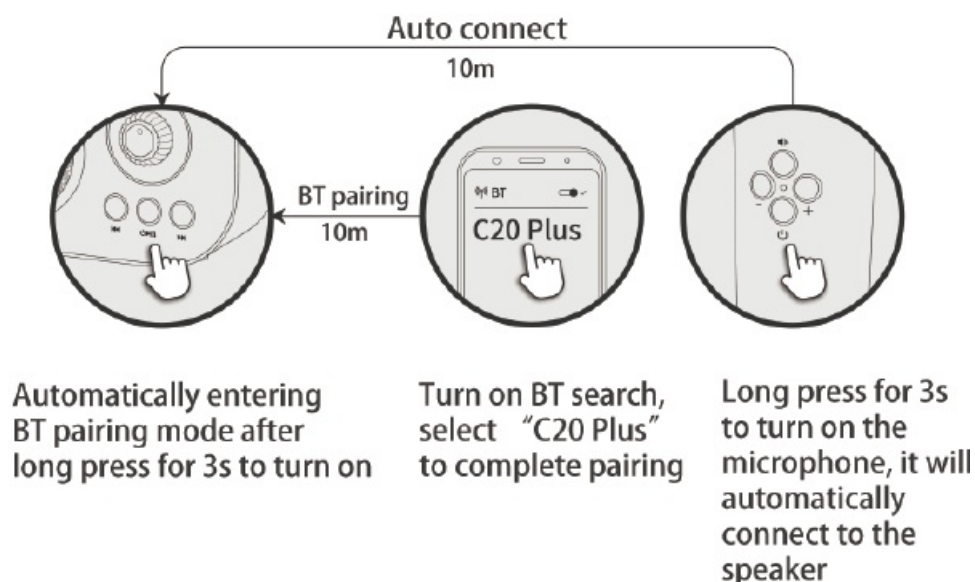

1. "Speaker Power On/Off", long press for 3s to turn on/off the speaker. Automatically enter the "BT mode" after powering on, and double-click to switch the play mode, they are "BT mode", "FM mode" and "TF card mode". Click to pause/play music while playing (Note: Since the fm mode is an auxiliary function, an external charging cable is required to act as an antenna to receive the signal. Signal strength varies by region.)
2. "Machine volume knob", turn left to decrease the volume, otherwise will increase.
3. "Previous", click to switch to the previous song.
4. "Next", click to switch to the next song.
5. "TF card slot", insert the TF card slot to switch the TF card playback mode.
6. "Machine charging indicator", the red light is always on when charging, and the light is off when fully charged.
7. "Type-C charging port" DC 5V to charge the Karaoke Machine.
8. "Mic sound effect" click to switch six sound modes, they are "KTV Mode", "Original Mode", "Male Mode",

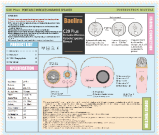

“Female Mode”, “Baby Sound Mode”, “Magic Sound Mode”

9. “Mic”-“” , click to reduce the microphone volume.
10. “Mic on/off “button, long press for 3s to turn on/off the microphone; After the microphone is turned on, it will automatically connect to the speaker, and the ‘MIC LED light’ will stay blue.
11. “Mic” +”” ‘click to increase the volume of the microphone. “Mic indicator light” , which acts as a prompt for the operation of the microphone.
12. “Mic Type-C charging port”, the red light is always on when charging, and the light is off when fully charged.
