## ELECTRIC TURNTABLE INSTRUCTION

### USE STEPS

**STEPS 1** Put the turntable at an appropriate place where you are going to display your product, you may need to consider the lights, settings, etc.

Different light angles during rotation show the characteristics of the items more delicately.

**STEP 2** Plug in, then turn on the switch to check if the turntable can rotate well. (The turntable will beep twice when you turn on.)

**STEP 3** Put the product on the turntable, you could try every key on the remote to get familiar with it. Every time a key is pressed, the turntable will beep.

**STEP 4** Choose an appropriate rotation mode, adjust the speed you want, then you can start making a video.

### ATTENTION

- The turntable belongs to the category of electrical appliances and is not waterproof or heat resistant. If not used for a long time, the remote control battery should be removed and the remote control and turntable should be stored in a dry place.

- Non-professionals do not disassemble this product at will. Otherwise, we will not be responsible for any after-sales problem.
- If the turntable cannot rotate: Please firstly check whether the turntable is powered. If the turntable still does not work, please contact with us.
- If the remote control does not work after you replace the batteries, please contact with us.
- The size of the display object requires less than the diameter of the turntable.
