COSMO 4L Mini Fridge

Model MINI FRIDGE

COSMO 4L

PLEASE READ AND FOLLOW ALL SAFETY RULES AND OPERATING INSTRUCTIONS BEFORE USE

Thank you for purchasing our product and thank you for placing your confidence in us. Please read this manual carefully before using it. Follow the instructions and keep this handy for future reference. Please follow the operating instructions and safety notices in the manual. If any issues arise, do not fix it yourself or hand it to the after-sales service center which has not been authorized. Please contact the local authorized service center.

IMPORTANT SAFEGUARDS

1. If the power cord is damaged, do not touch the power cord to avoid danger.
2. When using the product, please note that the voltage used is absolutely correct (the applicable voltage of this product is clearly marked on the product nameplate).
3. The vehicle 12V function can be only activated when the vehicle is running. Be sure to turn off its power and unplug the vehicle power cord after the vehicle stops running.
4. The product should not be used for transporting or loading acid-corrosive items, and the product should not be cleaned with corrosive solvents.
5. Do not block the ventilation openings or fan in normal use.
6. Use this product in strict accordance with the instructions, please do not disassemble the internal parts without permission.
7. The product should be stored in a place that is clean, and a ventilation channel with a width of 10cm should be kept around all sides. And do not put the product at wet areas or place it near heat sources, such as electric stoves, LPG stoves, heat pipes or flames.
8. The Mini Fridge should be cleaned regularly for the best operation.
9. The Mini Fridge is not a normal refrigerator, and it is not to be used for fresh meat, etc.
10. Please keep the door openings to a minimum to keep the contents cool and fresh. Ensure the door is correctly latched when not in use

11. The product should not be used by persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have not been given supervision or instruction concerning the use of the appliance in a safe way and they understand the hazards involved.
12. Children should be supervised to ensure that they cannot play with appliances.

Product Description

1. This mini fridge is of simple appearance, compact, and easy to carry, as well as long service life and low power consumption. It can be used for home and travel use
2. This product has fully embodied the concept of “Green and Environmentally-friendly”. And this product uses semiconductor refrigeration technology, it has no bulky compressor and no refrigerant to avoid noise and fluorine pollution. It is an environmentally-friendly refrigeration product without any harmful pollution.
3. This product is suitable to be used in many applications and is versatile and compact, light, and convenient.
4. This product has a simple structure and long service life, it is easy to maintain and is of low power consumption and strong shock-resistant capability.
5. This product has a long service life, and the life of the cooling module can reach up to 50000 hours.

Product Parameters

NAME	Mini Fridge
MODEL	COSMO 4L
RATED VOLTAGE	AC 240V / DC 12V
RATED POWER	48W
WORKING PRINCIPLE	Semiconductor refrigeration technology
COOLING TEMPERATURE	15 °C – 18 °C lower than the current ambient temperature

Front

Side

Back

Operation Instruction

1. Vehicle use (DC 12V)

1. Turn to the “Cool” setting.

2. Align the DC cable with the socket of the vehicle (DC12V) , and then insert it fully into position.

3. Directly insert the DC cable power cord into the 12V socket in the vehicle.

2. Home use (AC – 240V)

1. Turn to the “Cool” setting.

2. Insert one end of the household power cord into the AC socket of the Mini Fridge 240V). insert fully into position.

3. Insert the other end of the household power cord into the household outlet socket.

3 .Operation for “Cool” Mode

1. When cooling, turn the Switch” to the “Cool” setting, the green indicator lights up and the Mini Fridge starts cooling operation.
2. When you need to turn off the Mini Fridge, turn the “Switch” to the “OFF” position, and the Mini Fridge will stops working. If the mini fridge will remain off for a long time. Disconnect and switch off the wall socket.

Cool: Green indicator lights up

Tips for Operation

1. The closer to the cooling chip position, the better the cooling effect.
2. Metal cans can be selected for cooling drinks for better / faster results.
3. Any loose items such as fruit should be cut into pieces and stored
4. Cosmetics and other products that are closer to the inner wall of the Fridge – The closer to the cooling module, the better the cooling effect.

SUGGESTED TEMPERATURE

1. Fruits: The suggested temperature for refrigerating fruits is about 5-10 ° C, which can maintain the quality and flavor of the fruits and extend freshness.

2. Beer: The suggested temperature for storing beers should be between 0-10 °C, preferably about 6 °C.
3. Cosmetics/skincare products: The suggested temperature for storing cosmetics or skincare products generally should be between 8-15 °C. Too high or too low temperature will deteriorate the cosmetics, and the cosmetics (skincare products) which are cooled down to this temperature range will have a good cooling effect on the skin.

SCOPE OF APPLICATION

1. Application places: Car, home, office, dormitory, cosmetics salon, etc.
2. Suitable for basic refrigeration: Fruits, bottled/canned beverages and cosmetics, etc.
3. Not suitable for long storage of refrigeration: Frozen foods such as ice cream and others, fresh meat, etc.

Troubleshooting Tips...

1. If the Mini Fridge is not powering on, please follow the steps below to operate it:
 - a. Check and make sure the power cord is properly connected to the power outlet socket.
 - b. Check and make sure the Fridge is turned on.
 - c. Check and make sure the AC/DC switch of the Fridge is selected correctly.
 - d. Check and make sure the outlet is properly connected and turned on and the fuse is OK.
2. If the cooling effect is not good, please check according to the following measures:
 - a. Check and make sure the fan is running normally. If not, please call for service to replace the fan. It is recommended to clean /hover the fan out every 3-6 months.
 - b. Touch the rear cooling element screws inside the Mini Fridge to check if it is cold. Call service to replace the cooling module or PCB if there is no cooling effect.

Cleaning and Maintenance

1. Before performing cleaning and maintenance, the “Switch” must be firstly turned off and then unplugged to disconnect the power supply.
2. Wipe any dirt and dust on the surface of the body with a soft clean cloth with detergent. You can simply use a soft cloth with warm water to clean the inside of the appliance.
3. The outer body must not be rinsed with water, especially the parts of the body such as the ventilation openings of the switch socket, otherwise, it will cause damage to the product and risk of electric shock.

Service

Please call our customer service if you encounter problems during use.

1. Please read this manual carefully before using it, pay special attention to “IMPORTANT SAFEGARDS”, and save this manual for future reference.
2. If this product is given to others, please give it together with this instruction manual.
3. The upgrade and specification of this product are subject to change without notice. The form and color of the actual product may be slightly different from those shown in the manual!

GUARANTEE

The customers can contact after-sales, explain the reason for the return and reach an “Agreement on Returning Goods”. Customers who purchase the product will enjoy the comprehensive service in accordance with the relevant national regulation “Provisions on the liability for the Repair, Replacement, and Return of Goods”.

ENVIRONMENT-FRIENDLY DISPOSAL

Please help to protect the environment Please remember to respect the local WEEE recycling regulations: Place any faulty electrical equipment to an appropriate local waste disposal center.
