BarTender 2024 Reviews Pricing And Demo Software

Specifications

- Product Name: BarTender Labeling Software
- Manufacturer: Seagull Scientific
- Deployment Options: On-premises, Cloud, Hybrid
- Editions: Software (on-premises), Cloud, Enterprise
- Additional Services: Professional, Starter, Premium Support, Essentials, Professional Services

Product Information

BarTender is a comprehensive labeling software that offers easy-to-use label design tools, on-demand printing capabilities, and seamless integration with business data and systems. It is designed to streamline labeling operations, minimize IT resources, and ensure regulatory compliance across various industries.

Product Usage Instructions

Deployment Options
BarTender can be deployed in three ways: locally as on-premises software, in the cloud, or as a hybrid combination to suit specific business needs.

Editions
BarTender is available in different editions:

- Software (on-premises): Available in four editions as a traditional per-printer or workstation license or subscription.
- Cloud: Available in two subscription plans for anywhere, anytime printing without additional IT resources.
- Enterprise: Offers comprehensive enterprise labeling management with secure centralized control and compliance.

Additional Services
BarTender provides additional services to enhance functionality:

- Professional: Dynamic labels, RFID tags, and cards for dynamic business printing.

- Starter: Simple label design and printing for small businesses with basic design tools.
- Premium Support: Global coverage with 24-hour priority response for production issues.
- Essentials: True cloud-based labeling without additional IT infrastructure.
- Professional Services: Custom integrations, label design, and training for successful deployment.

Frequently Asked Questions (FAQ):

- **Q: Can BarTender be used in multiple industries?**
  A: Yes, BarTender is designed to support various industries such as Manufacturing, Warehouse, Transportation & Logistics, Retail, and more. It offers solutions tailored to specific industry needs.
- **Q: What are the deployment options for BarTender?**
  A: BarTender can be deployed locally as on-premises software, in the cloud, or as a hybrid combination to meet the specific requirements of businesses.
- **Q: Does BarTender offer support for dynamic label printing?**
  A: Yes, BarTender's Professional edition provides dynamic labels, RFID tags, and cards for dynamic business printing with data entry forms and database connectivity.
- **Q: What additional services does BarTender offer?**
  A: BarTender offers services such as Premium Support for mission-critical labeling, Professional Services for successful deployment, and more to enhance the user experience.

Labeling, marking, and coding that transforms your supply chain
Minimize IT resources and streamline your labeling operations. BarTender provides easy-to-use label design tools, on-demand printing, and integration with your business data and systems, ensuring regulatory compliance.

- Standardize and centralize your labeling workflow with easy-to-use label design tools usable by everyone – regardless of proficiency.
- Print anywhere, anytime on any device using the industry's largest printer driver library to over 9000 drivers for the highest optimized printing performance.
- Enable interoperable communications for industry standards and compliance with support for the latest barcode and labeling standards (GS˝, RFID, UDI, GHS, and more).
- Automate your labeling workflow by leveraging the industry's only REST API to integrate with any business system or application and build custom integrations.

A unified solution for any industry

Manufacturing
Track your ingredients, parts, assemblies, and finished products throughout the manufacturing process. BarTender helps identify your assets and provides the knowledge and agility you need to optimize every process, asset, and resource

Warehouse
Ensure accurate inventory counts, location, and traceability in and out of the warehouse. BarTender empowers teams with the accuracy, visibility, and mobility needed to meet shipment objectives and increase customer loyalty.

Transportation & Logistics
Build accurate bills of lading, link ASNs to your trading partners, and print labels anywhere, anytime. BarTender enables easy barcode label and RFID tag generation to communicate accurate real-time information and enhance

workforce flexibility.

Retail
Ensure every product is placed correctly, create frictionless checkout experiences, and quickly look up product information. BarTender accelerates your digital transformation to improve your overall retail experience end-to-end – whether it is in-store, eCommerce, or somewhere in between.

More industries BarTender supports

- Aerospace
- Automotive
- Chemical
- Food & Beverage
- Healthcare

Deploy BarTender your way
BarTender can be deployed locally, in the cloud, or as any hybrid combination to meet your specific business needs.

BarTender Software (on-premises)
Available in four editions as a traditional per-printer or workstation license or subscription.

When to choose BarTender software (on-premises)

- Have available IT resources
- Need to trigger printing by a connected device automatically
- Print a variety of custom label templates
- Need advanced security configurations and audit trails/logging
- Need support for both private network and internet connectivity

BarTender Cloud
Available in two subscription plans that enable anywhere, anytime printing without additional IT and infrastructure resources needed.

When to choose BarTender Cloud

- Print labels remotely and from multiple locations
- Need to provide printing access to external/semi-public parties
- Have seasonal or temporary label print volume
- Need to deploy a labeling solution quickly
- Integrate with cloud/SaaS-based data sources or business systems

Enterprise

Comprehensive enterprise labeling management
Secure centralized control and compliance for your organization's most demanding industry regulations.

- Centralize label and document storage and management
- Easily manage printing across all your locations
- Allow customers and suppliers to print remotely
- Manage comprehensive security and auditable processes
- Enable complete traceability
- High availability with enhanced reliability

Automation
Powerful integrations with existing business systems
Ecient automated printing with powerful process automation and business application integration.

- Integrate your business system (ERP, WMS, MES, etc.) with your labeling
- Print a lot of different labels and documents for the same job
- Automate print operations – no coding required
- Reprint lost or damaged labels

Professional
Dynamic labels, RFID tags, and cards
Dynamic business printing with data entry forms, on-demand printing from any device, anywhere, and database connectivity.

- Leverage dynamic data from a database or advanced serialization
- Print with different operators using data entry forms
- Print labels on-demand from any device or BarTender Mobile App
- Print large volumes of many individualized labels
- Encode RFID tags, cards, etc.
- Workstation licensing available

Starter
Simple label design and printing for small businesses
Basic business label design and printing with easy-to-use design tools to print labels quickly and easily.

- Connect to local data sources (only Excel or CSV files)
- Design simple barcode labels
- Be up and running in minutes
- Print to unlimited
- printers from a single user (Workstation)

Automation
Flexible integrations with your business applications
Increased flexibility and control with customizable integrations and greater storage.

- Integrate your business system (ERP, WMS, MES, etc.) with your labeling using the industry's only REST API

- Manage more label documents & files, and print history

- Receive higher level support for your mission-critical labeling (available 24/7/365 coverage add-on)

Essentials
The quickest and easiest way to start printing
True cloud-based labeling without the need for additional IT infrastructure and resources.

- Design anywhere, anytime using the cloud-based BarTender Designer along with over 300 pre-defined label templates
  - Centralize label and document storage and management
  - Connect to cloud databases (Excel Online, Google Sheets, Azure SQL, SAP HANA, etc.)
  - Be up and running in minutes – skip any software installation

Each higher edition/plan supports all features included in the edition/plan preceding it.

Additional services available

Premium Support
Prevent downtime for your mission-critical labeling with 24/7/365 global coverage and ˝-hour priority response for any production-impacting issue.

Professional Services

Let us help you deploy, or update to, the latest BarTender solution successfully and quickly with custom integrations, label design, and training.
