Use Instructions

Bluetooth Connection:

1. Press the power button on the stylus to turn on and when the blue indicator flashes, enter pairing mode;
2. Go to “Settings” on your tablet, and enter “Bluetooth” choose “Baseus Pencil” to connect:
3. After it’s successfully connected, the indicator stays blue, and pairing is completed.

Shortcut Button Customization:

1. HOME Button
2. Power Button
3. Brightness +
4. Brightness –
5. Recently Used Programs
6. Volume +
7. Volume –
8. Previous Page
9. Next Page
10. Mute
11. Search
12. Photograph
13. Quick Screenshot
14. Editable Screenshot

APP Connection:

1. Please turn on the stylus, and connect to the Bluetooth;
2. Download the Baseus App in the App Store;
3. Add the stylus in the Baseus App, it's under the Lifestyle & Office catalogue.
4. Make sure the stylus is not connected to other device and the remaining battery is sufficient during the connection to the app;
5. If the connection fails, please restart the stylus and try to re-connect;
6. After you add the stylus in the app, enter the stylus interface and you can customize your own gestures for the settings

Use without Connecting to Bluetooth:

1. Press power button on the stylus, after 30s of flashing, the blue indicator will stay on, and then you can use the stylus;

2. When you press the power button again, the stylus will power off. After 5min of stand-by (not using the stylus), it will automatically turn off.

Use

1. You can use the stylus instead of your fingers to tap, drag on the screen. Or use it to write, draw in some apps.

2. Double-tap the shortcut control cap for more already set-up shortcut functions.

Battery Charging

You can charge the stylus battery in three ways.

1. Please use a standard USB to Type-C cable to charge the stylus, (most charging cables or data cables for Android phones and tablets on the market now are applicable to this product) connect one end of the cable to the Type-C port on the stylus and the other to the USB port on a computer or tablet.
2. Connect one end of a cable to the Type-C port on the stylus and the other to a 5V/1A adapter to charge the stylus.
3. Use a 5V/1A power bank with Type-C, USB port to charge the stylus. The indicator will light up in red during charging, and it takes about 60 minutes to fully charge. After it's fully charged, the red indicator will go out and light up in green.

Not edible, Not washable.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
