Setting The 4-digit Combination Code

1. Set the combination wheels to the basic setting 0000.
2. Press the red button and open the lock.
3. Turn the reset knob on the side 90 degrees clockwise.
4. Set the combination wheels to the desired combination and make a note of your new combination.
5. After selecting the number combination, turn the reset knob anticlockwise back to the original position. The new combination is now set.
