**Basics AUTOMATE MT03 Series Magnetic Wand Motor** 

#### **Product Specifications**

• Voltage: 5V-DC

• Torque: 1.1Nm

• Max Run Time: 6 min.

• Speed: 28 RPM (Adjustable to 20 or 24)

• IP Rating: IP20

• Limit Switch Type: Electronic

## **Product Usage Instructions**

## **Magnetic Wand Motor Operation**

The Magnetic Wand Motor offers simple and intuitive operation.

## Follow the steps below to use it effectively:

- 1. Press the appropriate buttons for functions such as limit setting, moving the motor up or down, and stopping.
- 2. The operation is consistent with Automate Push remotes for ease of use.

## Zero Head / Simplified Retrofit

The slim motor head eliminates the need for bracket adjustment, making retrofitting easy.

### Follow these steps:

1. The motor head retains manual system deductions, ensuring a streamlined installation process.

#### **Magnetic Wand Control**

The wand can be magnetically held in place or detached for controlling multiple motors.

#### Here's how to use it:

1. Detach the wand to control multiple motors or attach it for a hands-free experience.

#### Charging

- 1. Locate the USB-C port on the base of the wand.
- 2. Connect the charging cable to the port for convenient charging access.

#### **User Effort**

Operating the Magnetic Wand Motor requires minimal user effort.

1. Simply press the button for the desired operation, eliminating the complexities of a clutch or winder system.

#### **FEATURES**

## • Simple, Intuitive Operation

 Button operations such as limit setting, up, down, and stop are consistent with Automate Push remotes.

## • Zero Head /Simplified Retrofit

 A slim motor head retains manual system deductions, eliminating the need for bracket adjustment.

## • Child-Safe Magnetic Wand

 The wand can be magnetically held in place or detached to control multiple motors.

## • Easy Charging

 Accessible USB-C port on the base of the wand provides convenient charging access.

#### Minimal User Effort

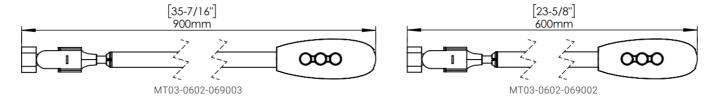

Compared to a clutch/winder system, operation is as simple as pressing a button.

## Frequently Asked Questions

- Q: Can the wand be used with other motorized products?
  - A: Yes, the wand is designed to control multiple motors and can be used with compatible products listed in the manual.
- Q: How do I adjust the speed of the motor?
  - A: The speed of the motor can be adjusted to either 20 or 24 RPM. Refer to the user manual for instructions on adjusting the speed.
- Q: Is the wand safe for children?
  - A: Yes, the wand is child-safe and can be magnetically held in place to prevent accidental detachment.
