**BAYROL Automatic CI-pH Hose Connection Dosing Pump and Injection Valve**

## Product Information

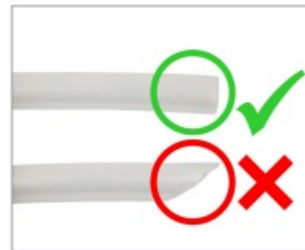

This product is a versatile electronic device designed to provide various functionalities. It is equipped with advanced technology to enhance user experience and efficiency. The product has a sleek and compact design, making it portable and easy to carry. It comes with a user-friendly interface and a high-resolution display for clear visibility. The product features multiple connectivity options, including Bluetooth and Wi-Fi, allowing seamless integration with other devices. It has a long-lasting battery life, ensuring uninterrupted usage for extended periods. The product also supports various file formats, making it compatible with a wide range of media types.

## Product Usage Instructions

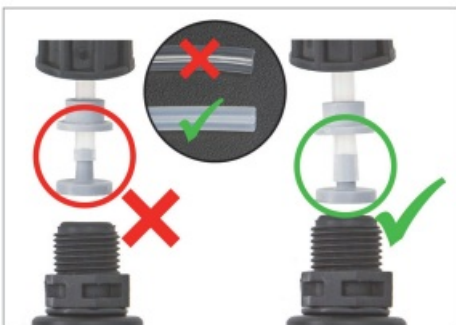

1. **Power On/Off:** To power on the device, press and hold the power button located on the side of the product. To power off, repeat the same action.
2. **Connectivity:** To connect the device to another device via Bluetooth, go to the settings menu and select the Bluetooth option. Enable Bluetooth on both devices and select the desired device from the list of available devices. To connect to a Wi-Fi network, go to the settings menu and select the Wi-Fi option. Choose the desired network from the list and enter the password if required.
3. **File Transfer:** To transfer files to or from the device, connect it to a computer using the provided USB cable. The device will appear as a removable storage device on the computer. Simply drag and drop files between the device and the computer.
4. **Media Playback:** To play media files, open the media player application on the device. Navigate to the desired file and select it to start playback. Use the on-screen controls or physical buttons to adjust volume, pause/play, skip tracks, etc.
5. **Battery Charging:** Connect the device to a power source using the provided charging cable. The device will indicate the charging status on the screen. Once fully charged, disconnect the device from the power source.

## Quick-Guide Hose connection dosing pump and injection valve

### 1. Cutting the hoses

### 2. Hose connection dosing valves

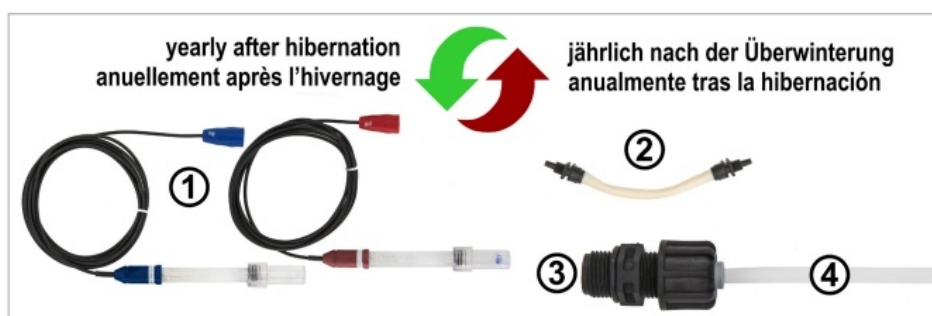

### 3. Hose connection dosing pumps

### 4. Weekly inspection

### 5. Yearly maintenance

Please manually check all components on a weekly basis
