### BEGA 71332A Shield

## Specifications

- Material: Stainless Steel
- Steel Grade: 1.4301
- Product Description: Surround made of stainless steel

## Product Usage Instructions

### Installation

1. Undo the hexagon socket screw (wrench size 3 mm).
2. Insert the shield into the groove in the floodlight housing.
3. Align the shield to the desired position.
4. Secure the shield in place by tightening the hexagon socket screw.

### FAQ

#### **Q: Is the stainless steel surround durable?**

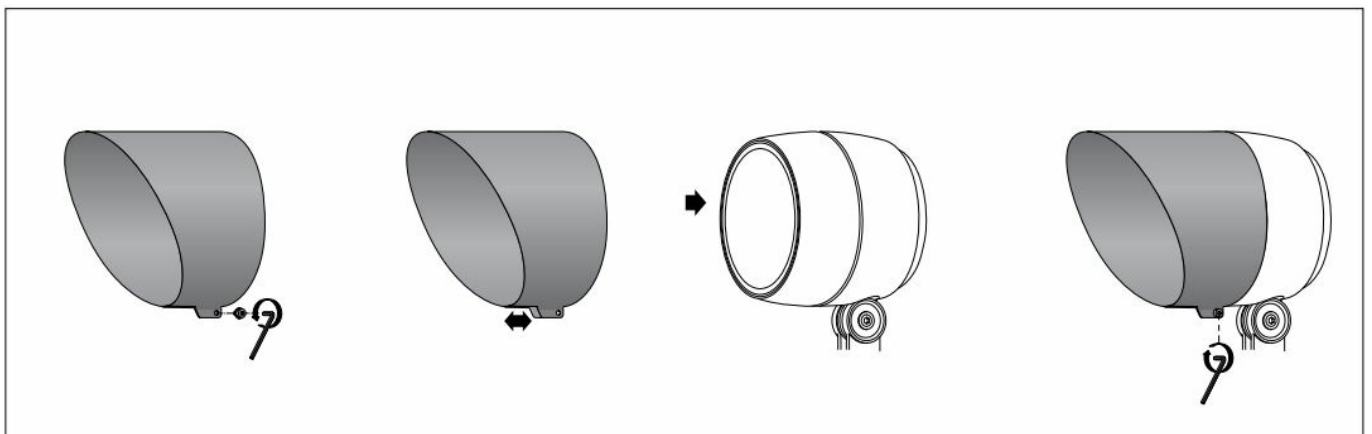

A: Yes, the surround is made of high-quality stainless steel (Steel Grade 1.4301) for durability and longevity.

#### **Q: Can modifications be made to the luminaire?**

A: Modifications to the luminaire should not be made without consulting the manufacturer. Any modifications made without authorization may void the warranty and safety standards.

### Technical amendments reserved

#### Shield

## Instructions for use

### Application

The shield can be installed by 360° and prevents lateral glare from one direction up to 45°.

suitable for BEGA performance floodlights
