Beikell B6311 Dual Connector USB Card Reader User Guide

Beikell B6311 Dual Connector USB Card Reader

Contents

Instructions for Use

1. Insert the SD card or Micro SD/ MMC card into the corresponding port on the card reader.
2. Plug the card reader into the USB A port available on the host computer or the USB C port on tablets or
   Android phones that support for OTG functions

3. When the card reader is successfully connected, the blue LED lights up and you can then transfer or edit the data on the media card.

    Note: Before use, it is required to insert the SD card /TF card/MMC into the card reader first, and then connect to the external device.
