Power ON

Using the receiver to connect the device, short press the BEITONG LOGO(HOME Button) to turn the Controller on.

Power OFF

1. Press and hold the BACK button + B button for about 3 seconds, the Controller will be turned off.

2. When the Controller is connected, without any operation for 10 minutes, the Controller will automatically shut down.
3. When the Controller is not connected, without any operation for 120 seconds, the Controller will automatically shut down.
4. When the power cannot support the normal use of the Controller, it will be powered off if the power is low.

Light Introduction

*The Breathing Light refers to the RGB aperture on the outer edge of the HOME Button(BEITONG). Under normal connection, the Breathing Light shows white. The state of Breathing Light can be customized through the BEITONG ASURA 2 Pro Assistant (BEITONG Game Hall).

Situation	Light State
Normal Connection	Will stay on
Pairing	Multi-color flashing alternately
Battery is less than 30%	Flashes quickly
Charging	Flashes slowly
Full Charge	After the Breathing Light is on for 10 seconds, it will switch to the customize light state or light off.

Connection Tutorial

Connect to Computer

Wireless Connection

Insert the wireless receiver into the USB interface of the computer, and press the BEITONG Logo (HOME Button) to turn Controller on. The connection is completed when the Controller vibrates and the breathing light is on.

Wired Connection

Use USB cable to connect the Controller and computer together, and then press the BEITONG Logo (HOME Button) to turn Controller on. The connection is completed when the Controller vibrates and the breathing light is on.

Connect to TV

Wireless Connection

Insert the wireless receiver into the USB interface of the TV, and press the BEITONG Logo (HOME Button) to turn Controller on. The connection is completed when the Controller vibrates and the breathing light is on.

* For a more stable connection during gaming, it is recommended to use an extension cable to connect the TV and wireless receiver.

Wireless Receiver

Wired Connection

Use USB cable to connect the Controller and TV together, and then press the BEITONG Logo (HOME Button) to turn Controller on. The connection is completed when the Controller vibrates and the breathing light is on.

Software Configuration Introduction

“BEITONG Gamepad Assistant” Software Configuration

Download and install the software “BEITONG Gamepad Assistant”

1. Download the software “BEITONG Gamepad Assistant” from BEITONG official website: <https://www.betop-cn.com/en/#/down>

(Note: If you enter the Chinese Official Website, please set the language in the upper right corner to English, and then click the DOWNLOAD enter into the download page.)

2. Use USB cable to connect the Controller and computer together

*In order to use the BEITONG Gamepad Assistant normally, the Controller must be connected to the computer with USB cable.

3. Run the software “BEITONG Gamepad Assistant” to set up the Controller function.

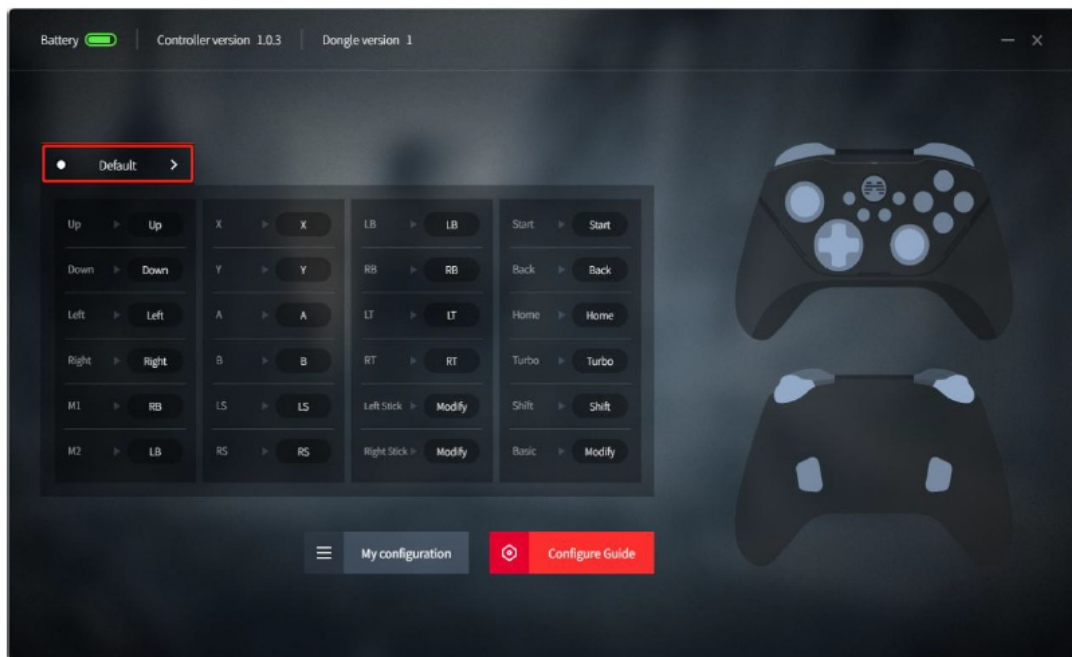

*If reminded to update the firmware, be sure to click “Confirm”.

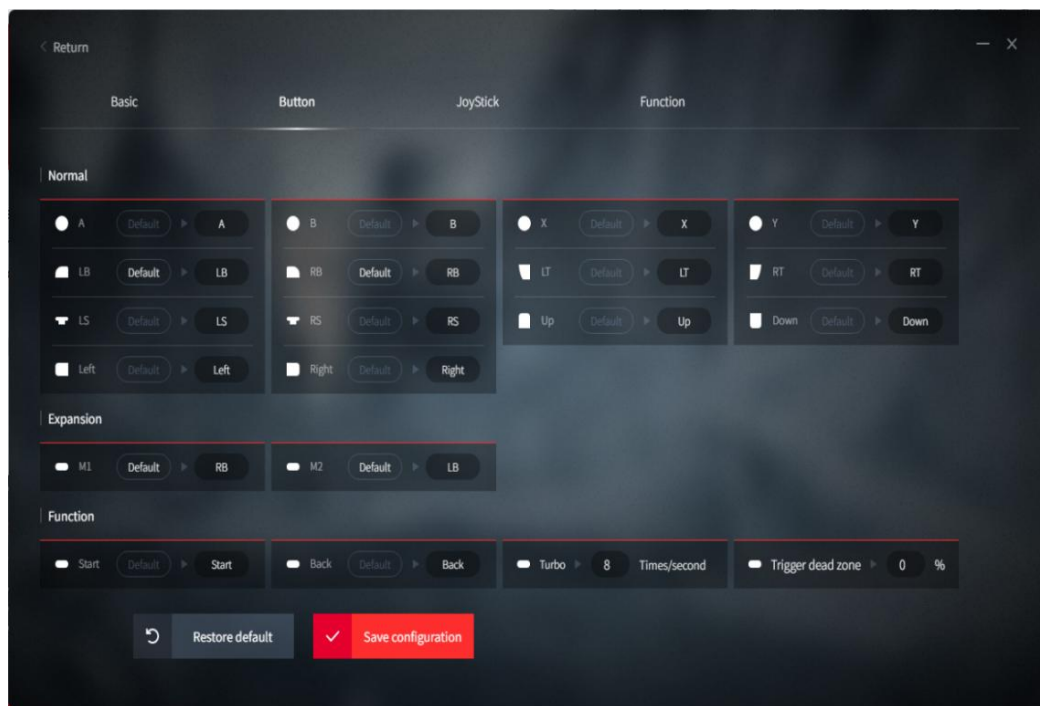

*If the firmware upgrade fails due to factors such as signal disconnection, disconnection or poor contact, please unplug the USB cable and then re-plug again to resume the firmware upgrade.

Customizable Buttons

1. After entering the “BEITONG Gamepad Assistant”, click any button value to enter the button value modification interface.

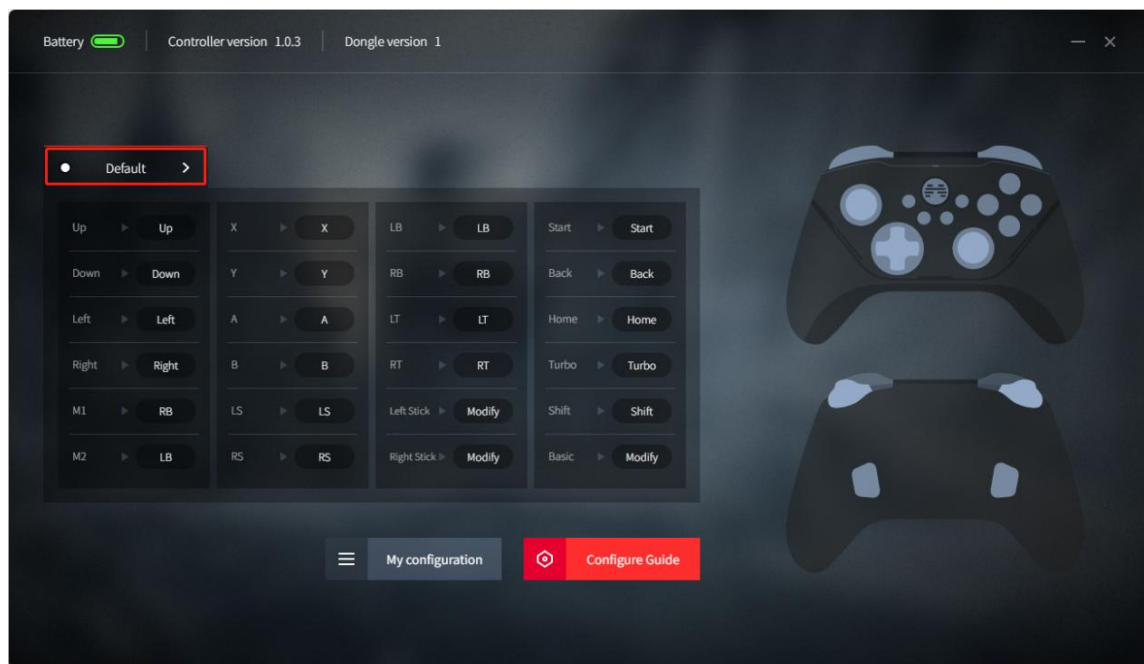

2. In this interface, you can modify the button value according to your needs, click the “Restore Default” button, you can cancel all button modification operations and return to the default state.
