Regulatory and Sustainability Information

Federal Communications Commission interference statement

DECLARATION OF CONFORMITY WITH FCC RULES FOR ELECTROMAGNETIC COMPATIBILITY

We, Belkin International, Inc. El Segundo, CA 90245, USA declare under our sole responsibility that the product, to which this declaration relates, complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference,
2. this device must accept any interference received, including interference that may cause undesired operation.

Federal Communications Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, under Part 15 of the FCC Rules. These

limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates,

uses, and can radiate radio frequency energy and, if not installed and used by the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular

installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the

equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the distance between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Radiation Exposure Statement:

- This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. To maintain compliance with FCC RF exposure compliance requirements, please follow the operation instructions

as documented in this manual. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

- Innovation, Science and Economic Development Canada Statement
- This digital apparatus complies with CAN ICES-3 (B)/NMB-3 (B)

This device complies with ISED's license-exempt RSS standards. Operation is subject to the following two conditions:

1. This device may not cause interference, and
2. This device must accept any interference, including interference that may cause undesired operation of the device. Ce dispositif est conforme à la norme CNR- standards d' Industrie Canada applicable aux appareils radio exempts de licence

Son fonctionnement est sujet aux deux conditions suivantes:

1. Le dispositif ne doit pas produire de brouillage préjudiciable, et
2. ce dispositif doit accepter tout brouillage reçu, y compris un brouillage susceptible de provoquer un fonctionnement indésirable.

Radiation Exposure Statement:

This equipment complies with ISED radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Safety Instructions

WARNING: Failure to follow these instructions could result in fire, electric shock, injury, or damage to the user, product, or other property.

- Operating Conditions: 0° C to 40° C
- Keep this product out of reach of children as this product contains small parts such as battery cells which can be a choking and swallowing hazard.
- Swallowing a battery may lead to severe burns (within 2 hours of ingestion), perforation of soft tissue, and death.
- In case of ingestion of a cell or battery, seek medical assistance immediately.
- Do not expose this product to rain, snow, or any sources of liquids or moisture.
- Keep this product away from heat sources such as fire, direct sunlight, combustible gas, water, or other liquids.
- Do not subject this product to crushing, bending, puncturing, or shredding.
- Avoid dropping or placing heavy objects on this product.
- Do not use if visible defects are observed on this product.
- Do not attempt to service, modify, or disassemble this product.

CAUTION: If you experience problems with this product, please discontinue use, and contact Belkin for assistance.

The marking information is located at the bottom of the product

The power delivered by the charger must be between min [5] Watts required by the radio equipment, and max [60] Watts to achieve the maximum charging speed.

CE Declaration of Conformity

- We, Belkin International, Inc., declare that the radio equipment complies with the Radio Equipment Directive 2014/53/EU, RoHS Directive 2011/65/EU + 2015/863, and WEEE Directive 2012/19/EU.
- The full text of the EU declaration of conformity is available at the following Internet address:
www.belkin.com/doc

Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

- **Radiation Exposure Statement:** This equipment complies with radiation exposure limits set forth for an uncontrolled environment.
- **Frequency band in which the radio equipment operates (BT):** 2402-2480MHz
- **Maximum power transmitted (BT):** <20dBm

UKCA Conformity:

We, Belkin International, Inc., declare that the radio equipment complies with Radio Equipment Regulations 2017 (S.I. 2017/1206), RoHS Regulations 2012, and WEEE Regulations 2013

The full text of the UKCA declaration of conformity is available at the following Internet address:

- Recycling programs for this packaging may not exist in your area.

Waste Electrical and Electronic Equipment Directive

- For information on product disposal, please refer to <http://www.belkin.com/uk/wEEE-regulations/>
- Under and by Article 14 of the Directive 2012/19/EU of the European Parliament on waste in electrical and electronic equipment (WEEE).
- The barred symbol of the rubbish bin shown on the equipment indicates that, at the end of its useful life, the product must be collected separately from other waste.
- Therefore, any product that has reached the end of its useful life must be given to waste disposal centers specializing in separate collection of waste electrical and electronic equipment or given back to the dealer when purchasing a new WEEE, under and in accordance with Article 14 as implemented in the country.

Frequently Asked Questions

- **Q: How do I charge the keyboard folio?**
 - A: The keyboard folio is charged using a standard USB cable connected to a power source.
- **Q: Can I use the keyboard folio with multiple devices?**
 - A: Yes, the keyboard folio can be paired with multiple devices, but only one device can be actively connected at a time.
