BENIDUB DS01E Dub Siren Old School Sound-FX Machine with Inbuilt Echo

- **POWER INPUT:**

- 12VDC, 1A, Center positive, 2.1 mm × 5.5mm barrel connector.

- **AUDIO OUTPUT:**

- 1/4" bal. or unbal.
- MONO lack

USING INSTRUCTION

1. **TIME:**

Sets the delay time from 50ms to 1 sec.

2. **VOLUME:**

Sets the echo-section volume.

3. **FEEDBACK;**

Sets the repetition intensity ranging from one single repetition to continuous oscillation.

4. **FILTER:**

Combined HP-LP resonant filter to shape the echo tone

5. **ECHO CUT:**

Temporary button that mutes the echo output. It can be used to rythmically cut the echo loop.

6. **MASTER VOLUME:**

Master output volume control.

7. **MODE:**

Select between four classic DSO1 dub siren tones.

8. **PITCH:**

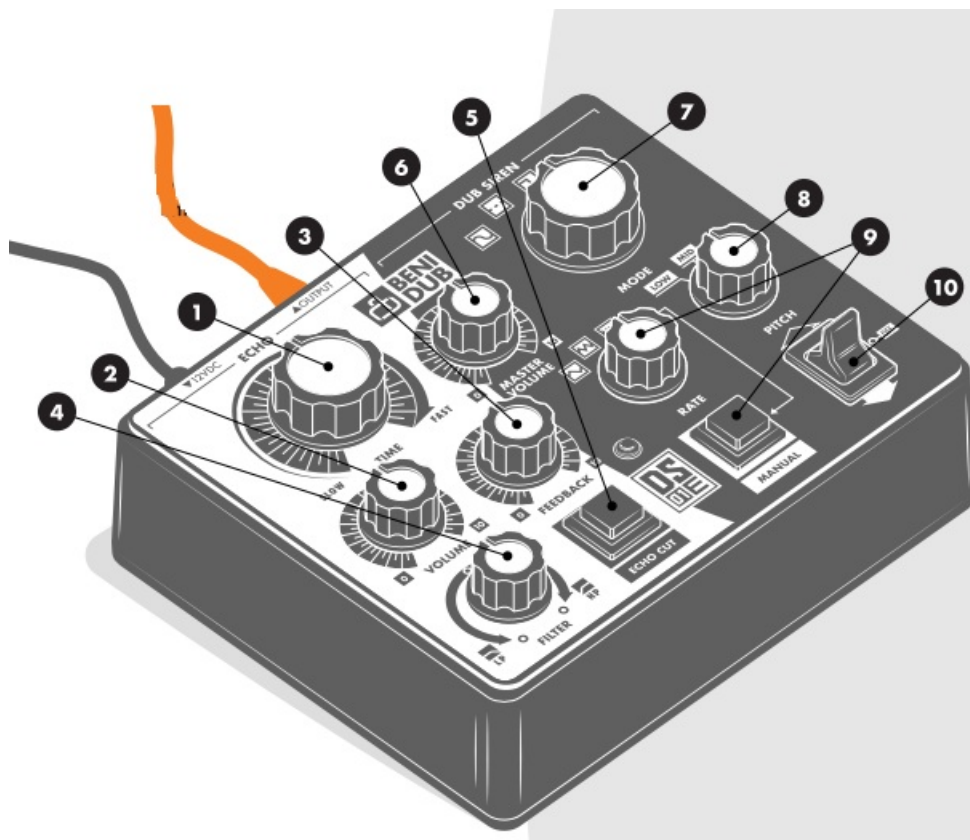

Select between three preset audio oscillator base frequencies.

9. **RATE/MANUAL:**

Modulation rate selector. In manual mode the push-button triggers the modulation.

10. **TRIGGER:**

Push upwards to trigger the siren temporarily or downwards for a continuous tone.

Made in Spain
