BEREST

BEREST A13 Rechargeable White Noise Machine

Launch Date: November 24, 2020

Price: \$24.99 to \$35.70

Introduction

The BEREST A13 Rechargeable White Noise Machine is an important tool for making a quiet space that helps you sleep and relax. It was made to be portable, and its small size and recharging battery make it great for use at home or on the go. The device has a variety of relaxing sounds, like white noise, songs, nature sounds, and more, that can help people fall asleep. With its soft night light and bright star projector, it can be used as both a night light and a calming light show, making it great for nurseries. It has a smart cry monitor that plays soothing sounds when a baby cries to help them calm down. You can make the experience fit your wants by changing the volume, brightness, and countdown timer. It's easy to connect to a crib or stroller because it comes with a hanging hook. This machine can be used for many things and is a great choice for parents or anyone else who wants to sleep better.

Specifications

- **Brand:** BEREST
- **Model:** A13
- **Color:** White
- **Power Source:** Rechargeable Lithium Battery
- **Sound Options:** White noise, fan sounds, nature sounds, and more
- **Dimensions:** 4.2 x 4.2 x 1.9 inches (or 276 x 2.76 x 1.97 inches as listed)

- **Battery Life:** Up to 30 hours on a single charge
- **Charging Method:** USB-C
- **Volume Levels:** Adjustable with multiple settings
- **Auto Timer:** 30, 60, and 90-minute auto-off timer

- **LED Night Light:** Optional soft glow
- **Material Type:** Plastic, Acrylonitrile Butadiene Styrene (ABS)
- **Batteries Required:** No (comes with a rechargeable battery)

Package Includes

- 1 x BEREST A13 Rechargeable White Noise Machine
- 1 x USB-C charging cable
- 1 x User manual

Features

1. Rechargeable Battery:

The BEREST A13 is equipped with a high-capacity **Lithium-ion battery** that provides up to **30 hours of continuous use** on a full charge. This eliminates the need for disposable batteries, making it an eco-friendly and cost-effective solution. The device can be conveniently recharged via a **USB cable**, ensuring it is always ready for use whether at home or on the go.

2. Multiple Sound Choices:

This white noise machine offers a range of **15 high-quality soothing sounds**, including **white noise, fan sounds**, and various nature-inspired environments such as **rain, ocean waves, and birds**. It also includes calming sounds specifically for babies, like the **mom's heartbeat** and the **baby "shush" sound**. These options cater to different moods and preferences, ensuring a peaceful environment for relaxation or sleep.

3. Compact and Portable:

With its lightweight, mini design (only **3.14 inches in diameter and 1.97 inches in height**), the BEREST A13 is highly **portable**. It fits comfortably in the palm of your hand, making it ideal for travel. The machine also features a **convenient hanging hook**, allowing it to be easily attached to a **crib, car seat, or stroller**, ensuring that soothing sounds are always within reach.

4. Adjustable Volume and Timer:

The BEREST A13 offers **adjustable volume settings** to accommodate different sound preferences. It also includes a **3-mode auto shut-off timer**, which can be set to turn off after **20, 40, or 60 minutes**. This ensures energy efficiency and allows parents to save battery power while avoiding the hassle of manual shutdown. For those who want continuous sound through the night, the timer can be bypassed.

5. LED Night Light and Projector:

The machine features a **colorful moon and star projector** that displays a calming galaxy of stars on the ceiling or wall. The **light fades through various colors**, captivating the attention of babies and soothing them to sleep. It has **3 adjustable brightness settings**, allowing you to customize the intensity of the light. This feature makes it perfect for nurseries or children's rooms, providing both light and sound to create a calming bedtime atmosphere.

6. Smart Baby Cry Sensor:

The built-in **cry sensor** automatically detects when a baby is crying and activates the sound and light functions to calm them. This feature plays **music for 30 minutes** to soothe the baby back to sleep, helping parents avoid frequent wake-ups at night. The cry sensor ensures hands-free operation and is especially useful for those who need help soothing their baby during sleep time.

7. 15 Soothing Sleep Sounds and Lullabies:

The machine features **9 different types of lullabies** and **6 natural sounds**, including **White noise**, **Brown noise**, **Mom's heartbeat**, **"Shuhhh" sound**, **Ocean waves**, and **bird songs**. These sounds help babies and adults alike to relax, fall asleep faster, and stay asleep longer.

8. **Auto Shut-off Timer and Brightness Control:**

The **auto shut-off timer** can be set for **20, 40, or 60 minutes**, after which the sound and projector light automatically turn off to save battery life. Both the **volume** and the **brightness of the projector** are adjustable, giving parents control over the ambiance of the room.

9. **Convenient Hanging Hook:**

The machine comes with a **built-in hanging hook**, allowing it to be attached easily to various surfaces such as cribs, car seats, and strollers. This feature adds portability and convenience, making it easy to take the white noise machine wherever it is needed.

10. **Perfect Baby Nursery Gift:**

The BEREST A13 is a thoughtful and practical gift for new parents. Its **compact size** and **multifunctional features** make it ideal for soothing babies, improving sleep, and promoting relaxation. The combination of soothing sounds, night light, and cry sensor makes it a reliable helper for parents navigating the challenges of bedtime.

Usage

1. **Power On/Off:** Press and hold the power button to turn the machine on or off.
2. **Select Sound:** Use the sound selection buttons to choose from different sound modes.
3. **Volume Adjustment:** Press the volume buttons to adjust the sound level to your preference.
4. **Timer Setting:** Press the timer button to choose between 30, 60, or 90 minutes of playtime.

5. **Charging:** Connect the USB-C cable to a power source to recharge the device. The LED indicator will turn off when fully charged.

Care and Maintenance

- Clean the surface with a dry cloth to remove dust or debris.
- Avoid exposing the device to water or moisture.
- Charge the battery fully before long periods of storage to maintain battery health.
- Store in a cool, dry place when not in use.

Troubleshooting

Issue	Possible Cause	Solution
The device not turning on	The battery is fully drained	Recharge the BEREST A13 using the provided USB cable
Sound distortion or poor quality	Volume too high or low battery	Lower the volume or fully charge the BEREST A13
The cry sensor not activating	Sensor sensitivity settings may be too low	Adjust the cry sensor sensitivity in the settings
The night light not functioning	Timer or brightness settings incorrect	Check the brightness level or reset the timer on BEREST A13
The device turned off unexpectedly	Timer is activated	Ensure the timer is disabled for continuous play
The sound stops playing after 30 minutes	The cry sensor is active, but no sound is detected	Adjust the cry sensor settings or set the machine to continuous play
Machine not charging	Faulty charging cable or adapter	Replace the USB cable or adapter for the BEREST A13
Star projector not changing colors	Settings may be locked or low battery	Check the battery charge and adjust the color settings
The cry sensor activates unexpectedly	External noise interference	Relocate the BEREST A13 to reduce sensitivity to external sounds
Volume not adjusting properly	Possible button malfunction	Restart the device and try adjusting the volume again
Sound won't play	Incorrect sound setting or mode selected	Cycle through the sound options to reset the sound
Machine freezing or unresponsive	Internal software glitch	Turn the BEREST A13 off and back on to reset
Battery draining quickly	Excessive use of a projector or high-volume	Lower the brightness and volume to extend battery life
The projector not projecting properly	Obstructed projection or incorrect angle	Clear any obstructions and adjust the angle of projection
The timer not working as expected	Timer settings may not be correctly programmed	Reprogram the timer to the desired duration

Pros and Cons

Pros	Cons
Multiple soothing sounds are available	Initial charging time may be lengthy
Smart cry sensor for automatic activation	Limited battery life if used continuously
Portable design with hanging hook	Some users may find the volume insufficient

Warranty

The BEREST A13 comes with a one-year warranty covering manufacturing defects. Please retain your receipt for warranty claims.

FAQs

What makes the BEREST A13 Rechargeable White Noise Machine portable?

The BEREST A13 is lightweight and compact, making it easy to carry anywhere, and its rechargeable battery ensures it can be used without being plugged in.

How long does the battery of the BEREST A13 Rechargeable White Noise Machine last?

The BEREST A13 battery lasts up to 30 hours on a single charge, providing extended usage for sleep aid and relaxation.

What sounds are included in the BEREST A13 Rechargeable White Noise Machine?

The BEREST A13 features 15 soothing sounds, including white noise, lullabies, nature sounds, mom’s heartbeat, and ocean waves.

How does the cry sensor on the BEREST A13 Rechargeable White Noise Machine work?

The cry sensor on the BEREST A13 detects a baby's cry and automatically activates soothing sounds to help calm the baby.

What timer settings are available on the BEREST A13 Rechargeable White Noise Machine?

The BEREST A13 offers three timer settings: 20, 40, and 60 minutes, allowing for automatic shut-off after the selected duration.

How do I adjust the volume on the BEREST A13 Rechargeable White Noise Machine?

The volume on the BEREST A13 can be easily adjusted using the volume buttons, with multiple levels to suit your preference.
