**Bertazzoni REF30RCPIXR23 Built In Refrigerator Column**

## Product Information

The product is a built-in food preservation appliance that needs to be installed in secure cabinetry. It has anti-tipping brackets that need to be installed if the appliance is not connected through the side profile trims. The product requires a separate circuit breaker servicing only this appliance for installation.

### The product has the following dimensions:

- **Side View:** 22 1/16 x 80 3/4 x 5 3/4 inches (560 x 2050 x 146 mm)
- **Front View:** 29 5/8 x 83 1/2 inches (752 x 2120 mm)
- **Top View:** 29 15/16 x 24 3/16 x 52 3/8 inches (761 x 615 x 1331 mm)

The door width of the product is 83 1/2 inches (2120 mm). The cutout dimensions required for the installation of the product are:

- **Side View:** 30 x 83 7/8 inches (762 x 2130 mm) minimum

- **Front View:** N/A
- **Top View:** 25 inches (635 mm)

The area to be left clear for the anti-tipping brackets is 3 1/2 x 5 inches (82 x 127 mm).

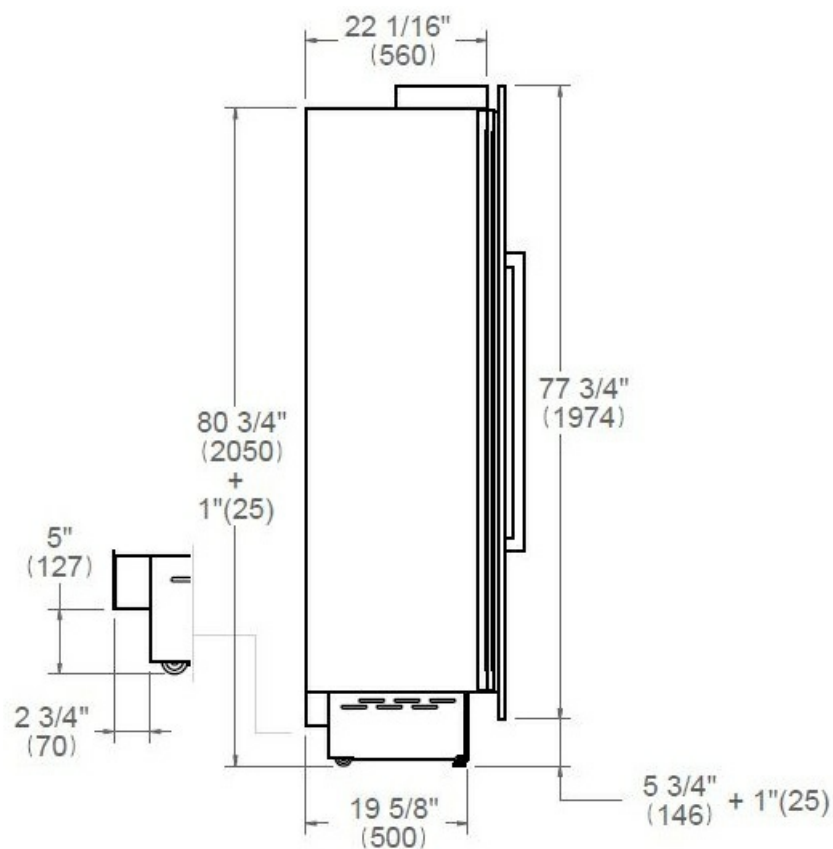

For electrical connection, a properly-grounded, horizontally-mounted electrical receptacle should be installed. Connection(s) placement within the opening may require additional cabinet depth.

## Product Usage Instructions

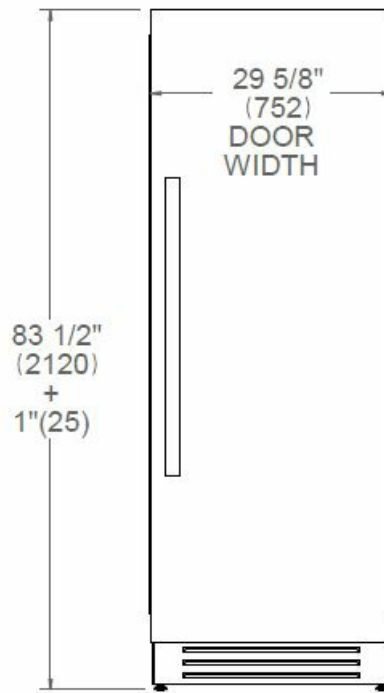

1. Ensure that the product is installed in secure cabinetry.
2. If the appliance is not connected through the side profile trims, install the anti-tip brackets.
3. Install a separate circuit breaker servicing only this appliance.
4. Ensure that the cutout dimensions required for the installation of the product are met.
5. Leave an area of 3 1/2 x 5 inches (82 x 127 mm) clear for the anti-tipping brackets.
6. Install a properly-grounded, horizontally-mounted electrical receptacle according to the drawing provided.  
Connection(s) placement within the opening may require additional cabinet depth.

- Area to be left clear for the anti-tipping brackets 3"1/2x5" (82x127mm)

## ELECTRICAL CONNECTION

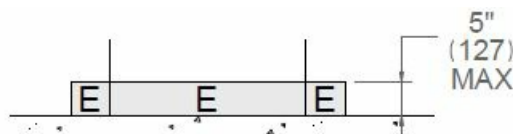

### TOP VIEW

A properly-grounded, horizontally-mounted electrical receptacle should be installed according to this drawing.

### FRONT VIEW

Connection(s) placement within the opening may require additional cabinet depth.

- A separate circuit breaker servicing only this appliance is recommended.
- For the installation of multiple products in combination, refer to the Built-in Food Preservation Design Guide.
- Dimensions in parentheses are millimeters unless otherwise specified.

## INSTALLATION REQUIREMENTS

If the appliance(s) is not connected through the side profile trims to secured cabinetry anti-tip brackets must be installed.
