Best Joy B0B4JKNSH4 Bubble Machine User Manual

1.Power Supply

bubble machine bestjay_support@yeah.net 100% happy guaranteed for any issues

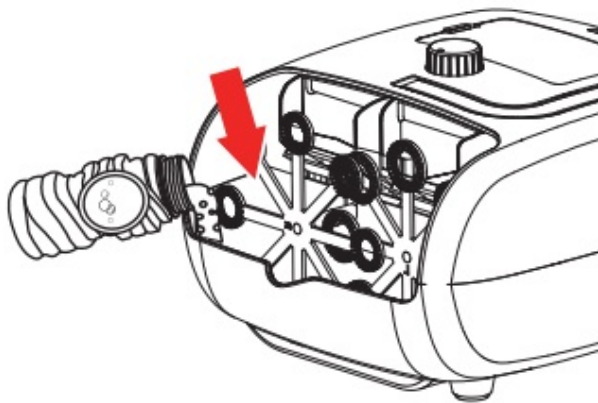

Power Supply: Install 6 batteries to operate. Please install the battery correctly; Or follow the instructions picture to use a USB power connection socket; Also, you can connect the power bank to use.

NOTE: It is recommended to remove the battery after use to prolong the use life of the machine.

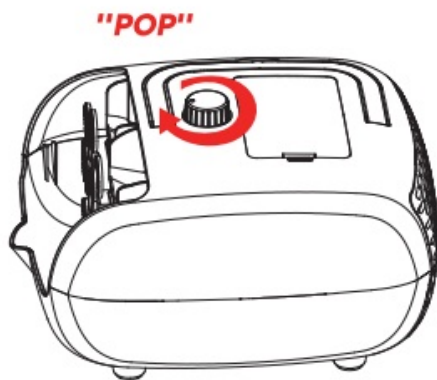

2.Add bubble liquid

Need to buy Bubble Solution separately, according to 1:6 configuration bubble liquid. And note that the max capacity is 14.2oz/420ml, so make sure the liquid does not exceed the 'water line' shown in the instruction picture.

3.Power on

To start the bubble machine, turn the top knob clockwise until hearing a “pop” sound; Keep rotating the knob, the power of the bubble machine will increase, and more bubbles will come out. When the knob is turning to a certain level, it will reach max gear, please do not continue to rotate vigorously; Otherwise, the switch will be damaged.

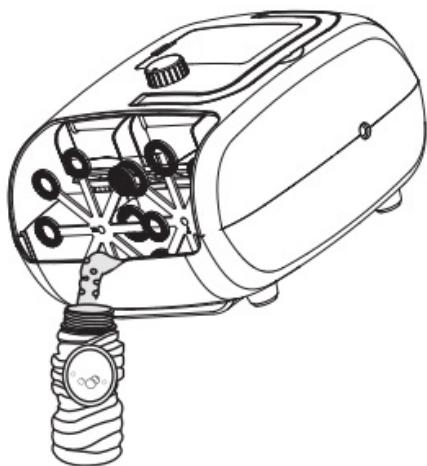

4.Shut down

To stop the bubble machine, turn the top knob counterclockwise until hearing a “pop” sound.

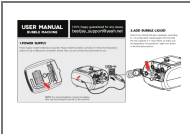

5.clean

To clean the bubble machine, please make sure the batteries are taken out or the USB cable is unplugged; Then pour out the remaining bubble liquid along the water outlet groove. The machine is not wholly waterproof, please do not use water to wash, it is recommended that use a dry towel to clean.
