Best HBN65 Series Built In Range Hood

Product Usage Instructions

- **Facility**
 - Follow the provided cutout dimensions for proper installation of the hood. Ensure the electrical connection is a direct wire setup. Use an 8-inch duct or a 3 1/4 x 10-inch duct for ventilation.
- **Operation**
 - Use the Capacitive Touch Slider to control the fan speed. Features like Heat Sentry™ and SmartSense enhance performance. Use the BEST Kitchen app for additional control options.
- **Maintenance**
 - Regularly clean the filters and follow the Filter Clean Reminder. Check for any blockages in the duct and ensure proper airflow for optimal performance.

PRODUCT INFORMATION

Technology

- **SmartSense®** Uses infrared sensors to monitor heat from the cooking surface and automatically adjusts hood fan speed

- **Wi-Fi** Wi-Fi, Bluetooth and voice activation capabilities enable hands-free operation

- **CODE READY TECHNOLOGY** Code Ready Technology® can limit airflow to 300 or 400 CFM to comply with local make-up air code requirements

EZ Install bracket system allows for single-person installation

FEATURES

- Internal blower system powers 650 Max CFM, with less than 0.3 sones at low speed
- Perimeter aspiration with mesh filters engineered to optimize capture efficiency

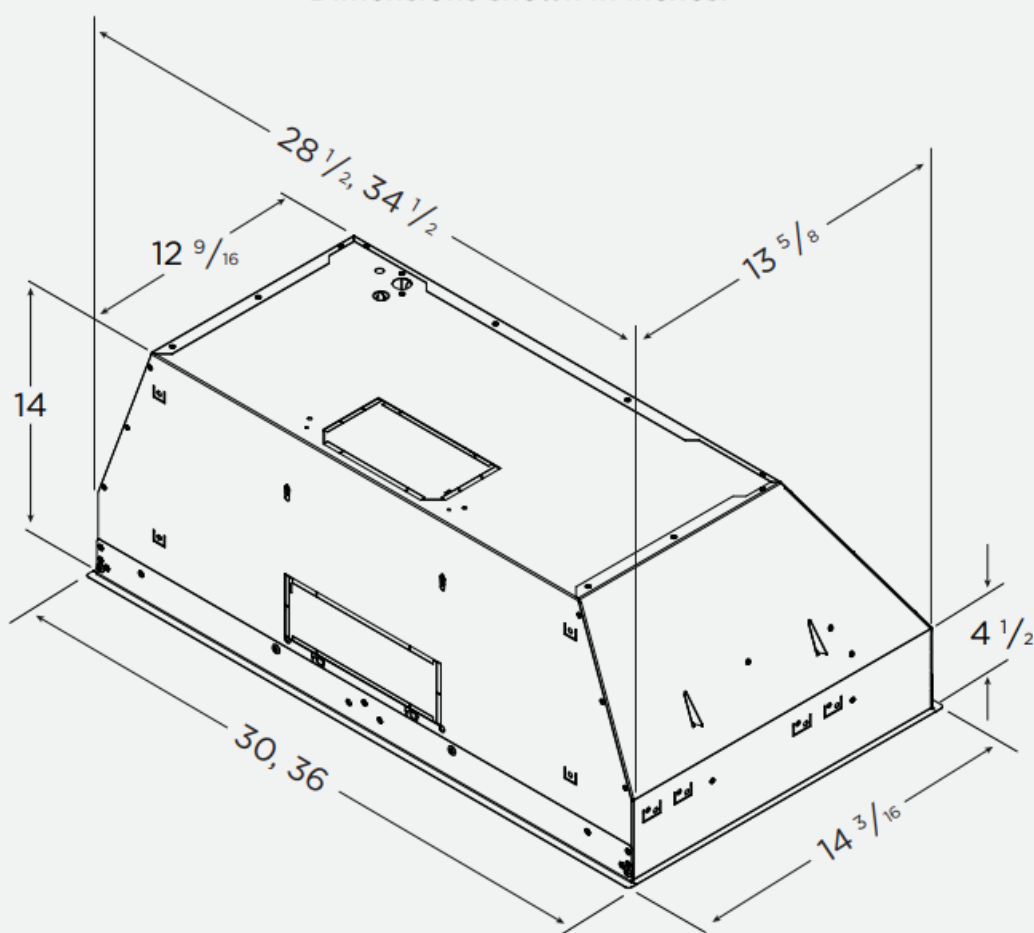

Compatible
with the BEST
Kitchen Mobile
App

At BEST, we make high-performance range hoods that perform beautifully. Astonishingly quiet. Impressively effective. Remarkably efficient. And perfectly suited for the most distinguished kitchens. Whether it's the centerpiece of the room or letting its surroundings shine, BEST is where high-end performance inspires.

DIMENSION

Installation height above the cooking surface: 24"-30"

Dimensions shown in inches.

If needed, ask a
recommended
installer to limit
discharge to 300
or 400 CFM.
