### beyerdynamic CLASSIS RM 30 Condenser Microphone Array Instructions

Thank you for selecting the Classis RM 30 or RM 31 Revoluto microphone. Please take some time to read carefully through this information before using the product.

## Safety Information

- Protect the microphone from moisture and sudden impacts. You could either injure yourself or others or damage the microphone.
- Do not blow into the microphone, you could damage the transformer. It is preferable to carry out a speech trial.

## Applications

The Classis RM 30 | RM 31 is a modern desktop microphone which is ideal for discussions, podiums, tele/video conferencing, announcements and lecterns.

The Revolutio technology with integrated microphone capsules provides a corridor characteristic which ensures a wide range of good voice quality. Within this range up to two speakers can move freely, i.e. they can stand up or sit down, move their head and move towards or away from the microphone.

## Connection

For example an XLR flange socket is installed into the tabletop and connected to the amplifier input (pin 1: ground, pin 2: NF+, pin 3: NF-). As an alternative there are installation and shockmounted holders available (refer to "Optional Accessories").

The microphone is connected and ready for operation.

The Classis RM 30, RM 31 SP and RM 31 RC microphones need a phantom supply of 8 – 52 V for operation.

## Q Version

In order to avoid interference, we recommend that the audio and the supply to the illuminated ring are individually shielded. The Classis RM 31 Q microphone requires a voltage of 5 V for operation.

## Classis RM 31 SP version with illuminated ring and programmable button

With the SP variant you can select via the programmable button between the operating modes ON/OFF, Push-To-Talk and Push-ToMute. The microphone button can also be disabled (Button Mode – Disabled (ON)). The frequency response can be set with a separate switch in two stages: Linear or with bass roll-off to suppress low-frequency interference. The illuminated ring indicating the microphone status can be deactivated.

In order to select the requested button function with the rotary selector switch and for setting the frequency response, use a small Phillips screwdriver.

For assignments of the rotary selector switch, please refer to the following table.

Position	Button Mode	HP Filter	LED Ring
0	PTT	ON	ON
1	PTM	ON	ON
2	Disabled (ON)	ON	ON
3	ON/OFF	ON	ON
4	PTT	<b>OFF</b>	ON
5	PTM	<b>OFF</b>	ON
6	Disabled (ON)	<b>OFF</b>	ON
7	ON/OFF	<b>OFF</b>	ON
8	PTT	ON	<b>OFF</b>
9	PTM	ON	<b>OFF</b>
A	Disabled (ON)	ON	<b>OFF</b>
B	ON/OFF	ON	<b>OFF</b>
C	PTT	<b>OFF</b>	<b>OFF</b>
D	PTM	<b>OFF</b>	<b>OFF</b>
E	Disabled (ON)	<b>OFF</b>	<b>OFF</b>
F	ON/OFF	<b>OFF</b>	<b>OFF</b>

In addition to the features of the SP variants, the RC variant provides the option of external control. Furthermore, when operating the microphone button, an external device can be controlled via the control output.

In order to select the requested button function with the rotary selector switch and for setting the frequency response, use a small Phillips screwdriver.

For assignments of the rotary selector switch, please refer to the following table.

Position	Button Mode	HP Filter	LED Ring	Control ext. Dev.	Controlled by ext. Dev.
0	PTT	ON	ON	ON	ON
1	PTM	ON	ON	ON	ON
2	Remote only	ON	ON	<b>OFF</b>	ON
3	ON/OFF	ON	ON	ON	ON
4	PTT	<b>OFF</b>	ON	ON	ON
5	PTM	<b>OFF</b>	ON	ON	ON
6	Remote only	<b>OFF</b>	ON	<b>OFF</b>	ON
7	ON/OFF	<b>OFF</b>	ON	ON	ON
8	PTT	ON	<b>OFF</b>	ON	ON
9	PTM	ON	<b>OFF</b>	ON	ON
A	Remote only	ON	<b>OFF</b>	<b>OFF</b>	ON

B	ON/OFF	ON	<b>OFF</b>	ON	ON
C	PTT	<b>OFF</b>	<b>OFF</b>	ON	ON
D	PTM	<b>OFF</b>	<b>OFF</b>	ON	ON
E	Remote only	<b>OFF</b>	<b>OFF</b>	<b>OFF</b>	ON
F	ON/OFF	<b>OFF</b>	<b>OFF</b>	ON	ON

## Microphone Positioning

When notebooks are being used, it is also necessary to consider the microphones. Notebooks should always be positioned to the side of the microphones. Otherwise, when opened, the LCD screen would obstruct the sound. This also applies to freestanding monitors. Sufficient distance is the key to the directional effect and good feedback suppression. Moreover, notebooks often have fans at the back. The noise of the fan would then be picked up by the microphone.

Two Classis RM 31 Q should not be directly placed back to back, because the loudspeaker of the second builtin or desktop microphone unit will be picked up by the microphone and cause feedback. The minimum distance should be 15 cm.

The minimum distance to walls should be 15 cm. An acoustic shadow due to obstructions, such as books, newspapers or conference papers, deteriorates performance greatly.

In order to avoid feedback, the minimum distance between external loudspeakers and the Classis RM 30 or Classis RM 31 should be 5 m.

For more information about application examples, please refer to the beyerdynamic “Revolutio Design Guide”.

## Maintenance

Use a soft, damp cloth for cleaning the microphone. If necessary, you can use a gentle cleansing agent (such as washing-up liquid). Make sure not to allow any water to enter the transducer element and never use any solvent cleansers.

## Service

Servicing must be carried out by qualified service personnel only.  
Dismantling the microphone yourself will invalidate the guarantee.

## **Versions**

### **Classis RM 30**

3-pin male XLR connector,  
phantom power adapter,  
filter . . . . . Order # 729.388

### **Classis RM 31 SP**

3-pin male XLR connector,  
phantom power adapter,  
programmable button  
(PTT, PTM, ON/OFF) with  
braille, switchable  
low-cut filter, switchable  
LED ring . . . . . Order # 729.396

### **Classis RM 31 RC**

5-pin male XLR connector,  
phantom power adapter,  
programmable button  
(PTT, PTM, ON/OFF) with  
braille, switchable  
low-cut filter, switchable  
LED ring, remote control  
function. . . . . Order # 729.825

### **Classis RM 31 Q**

5-pin male XLR connector,  
LED ring . . . . . Order # 729.302

## **Optional Accessories**

### **GMB 33 S**

Microphone base with button,  
3-pin female XLR connector for  
Classis RM 30 . . . . . Order # 725.242

### **GMS 32**

Shock-mounted holder for  
table installations, for Classis RM 30  
and RM 31 SP, 3-pin female  
XLR connector, black . . . . . Order # 729.582

### **GMS 52**

Shock-mounted holder for  
table installations, for  
Classis RM 31 Q, 5-pin female  
XLR connector, black . . . . . Ord

### **ZSH 20**

Shock-mounted holder for  
table installations, black. . . . . Order # 454.559

## Technical Specifications

Microphone	Revoluto microphone array, patented
Transducer type	Electret condenser
Operating principle	Pressure gradient
Polar pattern	Corridor
Horizontal	Cardioid
Vertical	Lobe
Optimal distance to the speaker	40 – 80 cm [15.75" – 31.5"]
Frequency response	
Classis RM 31 Q / SP / RC	110 – 20,000 Hz
Classis RM 30	90 – 20,000 Hz
Sensitivity	
Classis RM 31 Q	28.7 mV/Pa = -30.9 dBV ±2 dB
Classis RM 30/31SP/31RC	28.5 mV/Pa = -30.9 dBV ±2 dB
Nominal impedance	
Classis RM 31 Q	< 20 Ω
Classis RM 30/31SP/31RC	< 200 Ω
Load impedance	
Classis RM 31 Q	≥ 100 Ω
Classis RM 30/31SP/31RC	≥ 1 kΩ
Signal-to-noise ratio /noise voltage	
Classis RM 31 Q	68 dB [A] / 11.5 µV [A]
Classis RM 30/31SP/31RC	67.2 dB [A] / 12.5 µV [A]
Max. SPL	107 dB [SPL @ 1% THD]
Equivalent SPL	26.8 dB [A]
Connector	
Classis RM 31 Q	unbalanced, 5-pin XLR male
Classis RM 30/31SP/31RC	balanced, 3-pin XLR male
Classis RM 31RC	balanced, 5-pin XLR male
Supply voltage / supply current	
Classis RM 31 Q	5 V / 8.5 mA (with LED)
Classis RM 30	Phantom power
P48	(+48 VDC ±4 VDC, 6.8 kΩ ±20%, < 4.5 mA)
P24	(+24 VDC ±4 VDC, 1.2 kΩ ±20%, < 4.5 mA)
P12	(+12 VDC ±1 VDC, 680 Ω ±20%, < 4.5 mA)
Classis RM 31SP/31RC	Phantom power
P48	(+48 VDC ±4 VDC, 6.8 kΩ ±20%, < 9.5 mA)
P24	(+24 VDC ±4 VDC, 1.2 kΩ ±20%, < 9.5 mA)
P12	(+12 VDC ±1 VDC, 680 Ω ±20%, < 9.5 mA)
Temperature range	-10 °C bis +40 °C [14 °F to 104 °F]
Dimensions:	RM 30 RM 31SP RM 31RC RM 31Q

### Disposal

This symbol on the product, in the instructions or on the packaging means that your electrical and electronic equipment should be disposed at the end of its life separately from your household waste. There are separate collection systems for recycling in the EU. For more information, please contact the local authority or your retailer where you purchased the product.
