BIGASUO 102KZ WiFi Digital Picture Frame

INTRODUCTION

The BIGASUO 102KZ WiFi Digital Picture Frame is the right mix of new technology and old-fashioned charm. It's made to help you keep your favorite memories alive. This digital frame has a bright 10.1-inch screen with a resolution of 1280×800 HD that makes your photos come to life in amazing detail. With its Wi-Fi connectivity, you can easily share and post photos from your phone using an app that is easy to use. At \$64.99, it's a great deal for all the features and quality it comes with. This picture frame was made by BIGASUO, a company known for making cutting-edge electronics. It would make a nice gift for someone you care about or a lovely addition to your home decor. Whether you're showing pictures from family trips, parties, or everyday life, the BIGASUO 102KZ keeps your memories close at all times. It's the perfect choice for anyone who wants to easily show off their favorite pictures.

Memory Storage Capacity	32 GB
Control Method	App
Connectivity Technology	Wi-Fi, SD Card
Power Source	Corded Electric
Resolution	1280 x 800 HD
Compatible Devices	Smartphone
Manufacturer	BIGASUO

WHAT’S IN THE BOX

- Digital Picture Frame
- AC Adapter
- Stand
- Box
- User Manual

What's in the Box?

1. An Exquisite Box
2. A Digital Picture Frame
3. An AC Adapter
4. A Stand
5. A User Manual

FEATURES

- **Private and Safe Sharing:** Uses a secure network encryption channel to share pictures and videos, protecting your privacy while letting you share as much as you want with family and friends through the Uhale app.

Instant & Wireless Sharing

Share pictures and videos via the app

Share **100** Photos at a time

Share **2 mins** videos via Uhale App;
Through SD card no time limit.

- **10.1-inch IPS HD Touch Screen** : features a 1280×800 high-definition screen with bright colors and an ultra-wide viewing angle of 180°.
- **User-Friendly Touch Interface**: The tablet is easy for people of all ages to use, as it lets them quickly browse, change the brightness, and play slideshows with just a tap of the finger.
- The auto-rotation feature rotates pictures to fit the orientation of the frame, whether it's horizontal or vertical. This makes it easy to place in any setting.

Auto-Rotate & Wall Mounted

Automatically rotate photos according to the position of the frame

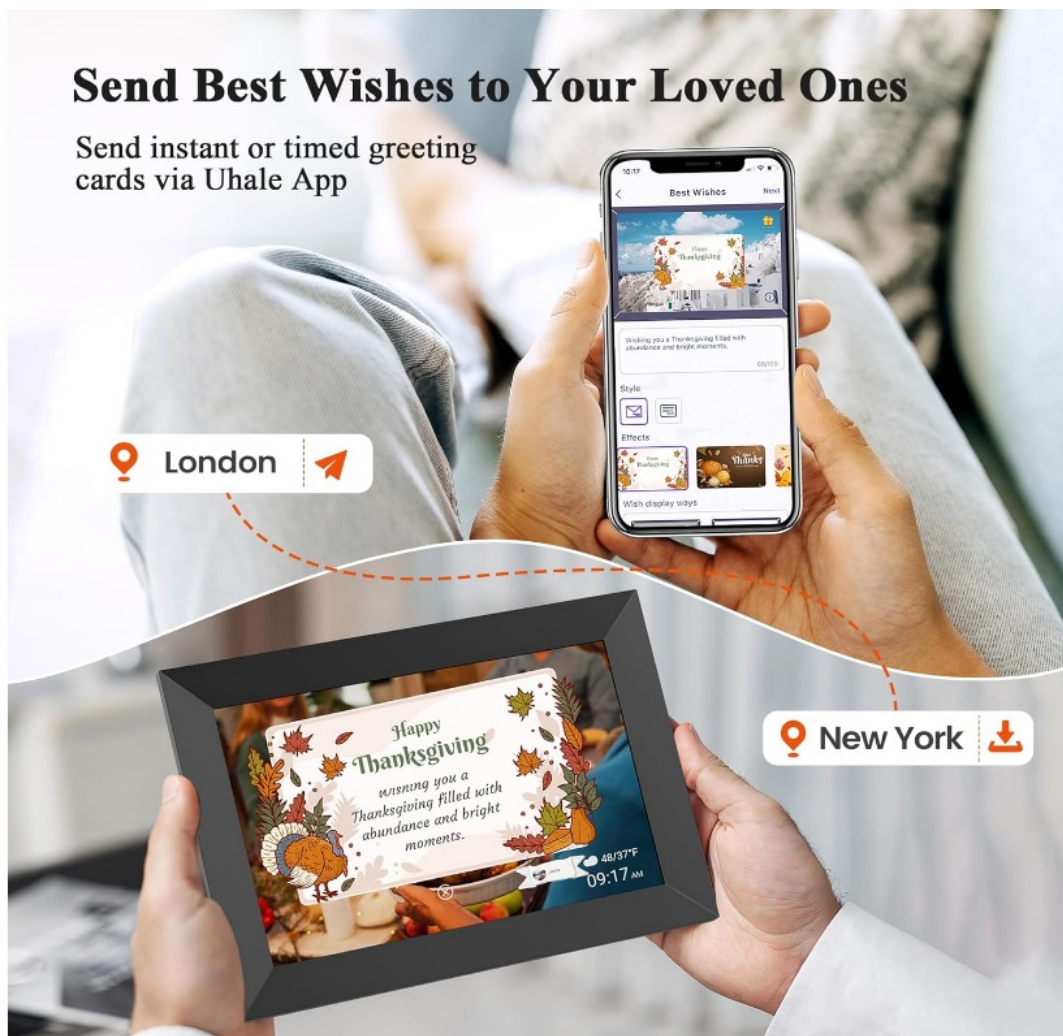

- **Large Built-in Memory:** It has 32GB of built-in memory, which can hold more than 50,000 photos (assuming each one is 300KB in size).
- **Expandable Storage:** You can add extra space to your phone with a micro SD card (up to 32GB) so you can import, export, and back up pictures without having to import them first.
- **Ability to Play Videos:** Videos play smoothly, so users can share special video moments along with photos. Videos can be uploaded directly from an SD card or the Uhale app, but app files can only be two minutes long.
- **Multi-Functional Custom Settings:** This feature lets you change a lot of settings, such as the slideshow mode, the sleep mode, the sound and brightness, and the playing options, such as single or loop playback.
- **Remote Access:** This feature lets users add photos and videos from their computers or smartphones, so it's easy to keep the frame filled with new memories.
- **Instant Best Wishes Feature:** This feature lets users send timed or instant messages along with pictures, making shared memories more personal.
- **Wall Mountable Design:** This display is made to be flexible so it can be put on a desk or hung on the wall.
- **Aesthetically pleasing:** It looks good in any home because of its sleek design and modern look.
- **Corded Electric Power Source:** Makes sure the device always works without having to change the batteries, giving you stable power.
- **App Control:** The Uhale app lets you control and operate the frame, making it easy to share and change

settings from your phone.

- **Compatible with Smartphones:** It works perfectly with smartphones, making it easy to share photos and videos, which makes it more convenient for users.

SETUP GUIDE

- **Unboxing the Frame:** Carefully take the digital picture frame out of its box, making sure that all of its parts are inside, like the power charger and user guide.
- **Choosing the Location:** Put the frame somewhere that works for you, preferably near a power outlet and close to a stable Wi-Fi link.
- **Getting Power:** To turn it on, plug the power adapter into the frame and plug it into a wall source.
- **Putting the Frame to Work:** Press the power button to turn on the frame and start the setup process.
- **Wi-Fi Connection:** Enter the password and then follow the on-screen directions to connect the frame to your Wi-Fi network.
- **How to Get the Uhale App:** Get the Uhale app from your phone's Apple App Store or Google Play Store.
- **Make an Account:** Open the Uhale app and either make a new account or sign in if you already have one.
- **Adding the Frame:** Open the app and choose "Add a New Frame." It will then ask you to connect the frame to your account.
- **Adding pictures:** You can use the app to add pictures directly from your phone to the frame, or you can use the Uhale web interface to add photos from your computer.

- **Putting in the SD Card:** You can put in a mini SD card to get to more photos and videos without having to import them first if you want to.
- **Setting Up:** You can change frame settings like the length of the video, the brightness, and the sound using the Uhale app or the on-screen menu.
- **Testing Features:** Play a slideshow to make sure the photos show up right and the auto-rotation tool works as it should.
- **Managing Content:** Use the app to organize and handle the photos you've uploaded so that your memory display always looks new and interesting.
- **Mounting the Frame:** You can use the mounting tools that came with the frame to safely hang it on the wall if you want to.
- **Sharing with Friends:** Use the Uhale app to invite your friends to connect to your frame so they can send you photos and videos.

CARE & MAINTENANCE

- **Regular Cleaning:** To keep the tablet and frame clean, use a soft, lint-free cloth to wipe them down every so often.
- **Avoid Direct Sunlight:** Keep the frame out of direct sunlight to keep the screen from fading and the electronics from getting too hot, which could damage them.
- **Maintain Proper Ventilation:** Make sure there is enough room around the frame for air to flow, which will keep it from getting too hot after long use.
- **Check the Wi-Fi link:** Make sure the frame always has a strong Wi-Fi link so you can share photos easily.
- **Updates for software:** Keep the Uhale app and the frame's code up to date to use new features and make sure they work with each other.
- **Organize pictures:** Make sure that the most important memories are easy to find by regularly managing the pictures that are stored on the frame.
- **Use Recommended SD Cards:** If you're using an external micro SD card, make sure it fits the frame's requirements so you don't have any problems.
- **Protect from Extreme Temperatures:** Keep the frame somewhere stable in temperature and away from places that could get very hot or very cold.
- **Backup Photos:** To make sure your photos are safe, back them up every so often to a computer or a cloud service.
- **Secure Placement:** Make sure the frame is set down on a solid surface so it doesn't fall over or get damaged by chance.
- **Turn Off When Not in Use:** If you're not going to use the frame for a while, you might want to turn it off to save energy and make it last longer.
- **Check Storage Capacity:** Make sure you check the frame's storage often so it doesn't get full and there's room for new files.
- **Avoid Water:** Keep the frame away from water and other liquids to keep the electrical parts from getting damaged and the frame from rusting inside.
- **Be Careful When Uploading Videos:** Remember that videos uploaded through the Uhale app can only be kept for two minutes, and make sure that you manage your information properly when using the SD card.

TROUBLESHOOTING

Issue	Possible Solutions
The frame won't turn on	Check if the power cord is plugged in securely.
Photos not displaying	Ensure the Wi-Fi connection is active and stable.
App not syncing	Restart the app and ensure your device is connected to Wi-Fi.
Screen flickering	Check for loose connections and try a different power outlet.
Unable to upload photos	Confirm that the app is updated to the latest version.
Touchscreen unresponsive	Restart the frame and clean the screen gently.
Photos are blurry	Verify that the uploaded images meet the recommended resolution.
SD card not recognized	Ensure the card is properly formatted and compatible.
Device overheating	Keep the frame in a well-ventilated area.
Frame displaying incorrect date/time	Sync with the app settings to correct the date/time.
Cannot connect to Wi-Fi	Check your router settings and ensure the frame is within range.
App crashes during use	Uninstall and reinstall the app to resolve the issue.
Unable to access settings	Perform a factory reset if you cannot access the settings.
Screen stuck on a single image	Restart the frame to refresh the display.
Frame not detecting SD card	Try a different SD card or check for card compatibility.

PROS & CONS

Pros:

1. High-resolution display (1280×800 HD) for clear and vibrant images.
2. Wi-Fi connectivity allows for easy photo uploads from smartphones.
3. User-friendly app control enhances convenience and accessibility.
4. 32 GB memory storage capacity to hold numerous photos.
5. Sleek and modern design complements any home decor.

Cons:

1. Requires a power source; it is not battery-operated.
2. Limited internal memory compared to other models.
3. Dependence on Wi-Fi may be a limitation in low-signal areas.
4. Setup may be challenging for non-tech-savvy users.
5. Touchscreen sensitivity may vary based on usage.

WARRANTY

The **BIGASUO 102KZ** comes with a standard **1-year limited warranty**. This warranty covers manufacturing defects and malfunctions that occur under normal usage conditions. Ensure to retain the receipt and follow the

manufacturer's guidelines for warranty claims.
