CAUTIONS

- Please insert the micro SD card in the right direction to avoid damage to the card or the device. If device shows error message, please format the micro SD card from device menu. Please reset device or change micro SD card if similar error continues.

Note : All files will be deleted when formatting micro SD card or firmware update, please backup the important files prior to that. When reset function is selected, the device will return to default setting.

- Assign mounting location that will not obstruct driver in any circumstances. Or cause injuries to drivers and passengers in case of emergency brake or accident.
- Blaupunkt does not warrant the performance of device if used with other Micro SD card other than Blaupunkt Micro SD card
- New Micro SD card must be formatted for first use. Micro SD must be formatted once every 6-month.
- Ensure bracket is installed correctly & firmly on windscreen to avoid damage to device and for better recording angle.
- Please do not use product under wet environment as device is not waterproofed/ water resistant.
- Please do not record or take picture facing sunlight.
- To obtain clear image, please clean windscreen and device lens regularly. Avoid using device in dusty environment.
- Handle device with care and avoid direct impact on the device. Avoid using device in high electromagnetic environment.
- Please operate the product within the temperature of -20°C -80°. Continuous exposure to sunlight, especially when locked in cabin where temperature exceeds 80° (may result to device malfunction, colour change, housing and image distortion).

Disclaimer:

- Blaupunkt is not liable for any loss or damage caused or resulting from unauthorized disassembly or modification to the product.
- In no event shall Blaupunkt be liable for any direct, indirect, punitive, incidental, special consequential damages, to property or life, improper storage, whatsoever arising out of or connected with the use or misuse of our products.
- USA & CANADA: Products not intended for sales in the United States and Canada. If purchased in the U.S. or Canada, this product is purchased as-is. No warranty, expressed or implied is provided in the U.S. and Canada.

- This device is NOT intended to be used for illegal purpose, surveillance and shall not be used in any form as evidence for claim purposes.
- Some countries prohibit drivers from mounting anything on the windshield, or restrict mounting to specific areas of the windshield. It is the owner's responsibility to mount the device in compliance with local laws.
- Error may occur depending on the surrounding environment and the voltage of the car.
- Blaupunkt is not liable/responsible for non-recorded event, missing files, etc.

STRUCTURE

1. 12V-24V mini USB power supply
2. Reset
3. Power
 - Press once to turn on
 - Press once to turn off (at standby mode)
4. Recording indicator light
 - Flashes when recording

 - Mute & unmute during recording
8. Mode/ Record / Stop record
 - Press to recording or stop record
 - Press, hold & release to switch between Video – Photo – Playback mode
 - Press to select Menu option
9. Micro SD card slot
 - Support up to 64gb Class 10 microSD
10. Microphone
11. Start / Stop recording

12. Bracket slot
13. Speaker
14. Lens

- Language: English, Chinese Simplified, Chinese Traditional, Japanese, Thailand
- Night vision supported by WDR & HOR
- Super capacitor technology
- Support up to 64GB microSD Class 10

FUNCTIONS – APP

Pair DVR with Android Smartphone

The distance range between the DVR (with Wireless Control dongle) and smartphone is approximately 10 meters (33ft) in an open field environment.

Wireless Connection (Wi-Fi)

Enable Wi-Fi & Location on Smartphone before beginning (Refer to the instruction manual of the smartphone on how to operate Wi-Fi & Location)

- Ensure to download Blaupunkt DVR BP3.1 A from App Store (iOS) or Play Store (Android).
- At standby mode, press 5 (Menu) twice then select Wi-Fi to turn on.

- Go to smartphone Wi-Fi connection setting, search for BP3.1 A, then key-in password 12345678
- BP3.1A will indicate successful connection when connected

- Go to the download BP3.1A app, and select Connect to device.
- App will began recording automatically when BP3.1 A is connected.

Repeat Wireless Connection steps whenever smartphone is disconnected

Download Video or Photo

- Go to app recording screen to select Video or Photo gallery.

- Press and hold preferred video/photo to select then press (download button) to download file.

FUNCTIONS – DVR

Car Plate Number

- At standby mode, press 5 (Menu) twice then select Car No
- Press 8 (Mode) to change digit location.
- Press, hold & release 8 to switch between Alphabet and Numeric.
- Press 5 (Menu) when complete to exit the setting.

Emergency Recording

- The device begins saving recording when the assigned sensitivity Intensity is detected. (Key Icon) will appear on the LCD display. Video file (file size based set loop recording) will be saved under Emergency file. Adjust sensitivity In Menu> G-sensor

SOS (Manual Mode)

During recording, press 5 (Menu) to manually save file as Emergency file. (Key Icon) will appear on the LCD display. Video file (file size based set loop recording) will be saved under Emergency file.

Auto Power Off

The device will automatically shut down if microSD card is not inserted within the set time.

Super Capacitor Technology

This technology ensure video files are saved even if sudden power cut-off.
