BLAUPUNKT RC 2.1 Reverse Camera

Safety Notes

This vehicle security system has been manufactured according to established safety guidelines. However, dangers may still occur if the safety notes in this manual is not observed. This manual is intended to familiarize the user with the reverse camera's important functions. Read this carefully, before using the reverse camera. Keep this manual in an easily accessible location. In addition, do observe the instructions of the devices used in conjunction with this reverse camera.

Attention

- Assign a mounting location that will not obstruct the driver in any circumstances. Or cause injuries to drives and passengers in case of emergency brakes or accidents.
- Ensure all wires are connected properly, and that the unit is functioning well before fitting the unit into the mount. Any unauthorized installation, disassembly or modification may cause malfunction to the unit and void the warranty of the unit.
- Always use only the parts that are included with the units only.
- Do not damage vehicle components when drilling holes for the mount.
- The vehicle may differ from the description provided here. Consult an authorized Blaupunkt dealer or vehicle manufacturer if the information provided here does not fit your specific installation requirement.
- This unit is applicable for front and reverse CVBS camera use. Consult an authorized Blaupunkt dealer during installation.
- The unit does not record video.
- Avoid automatic car wash or high-pressure water to prevent water and pressure from damaging the camera or causing it to fall off.
- Do not install this unit near the heater outlet.

This manual may be updated from time to time without any notice.

Disclaimer

- In no event shall Blaupunkt be liable for any direct, indirect, punitive, incidental, or special consequential damages to property or life and whatsoever arising out of or connected with the use or misuse of our products.
- USA & CANADA: This product is not intended for sale in the United States and Canada. If purchased in the U.S. or Canada, this product is purchased on an as-is basis. No warranty, whether expressed or implied is provided in the U.S. or Canada.

SPECIFICATIONS

Features	RC 2.1
CMOS Image Sensor	✓
NTSC / PAL TV System	✓
Effective Pixels	648 (H) x 488 (V)
750TVL Image Resolution	✓
25 Frame Per Second	✓
Exposure & Gain Control	✓
1/60~1/100000sec Electronic Shutter	✓
Auto White Balance	✓
Illumination Min.	0.2 Lux/F
Horizontal View	145° H
Vertical View	125° V
Diagonal View	160° D
DC12V Voltage	✓
Current	28mA
DC9-16V Operating Voltage Range	✓
Operating Temperature	(-35°) C~80° C
Storage Temperature	(-35°) C~80° C
Protection Grade	IP68
RCA/4 PIN DIN	✓
Lens	4 glass

INSTALLATION DIAGRAM

Reverse Camera

- Ground the wire through the exterior body of the vehicle and keep the connection intact.

Front Camera

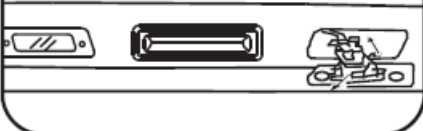

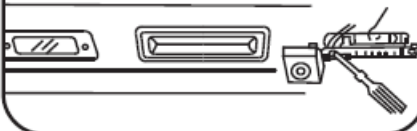

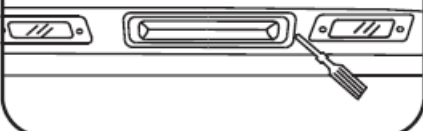

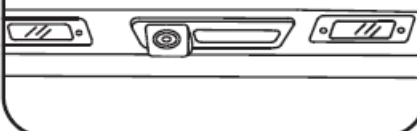

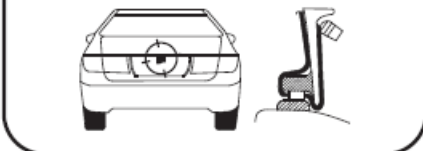

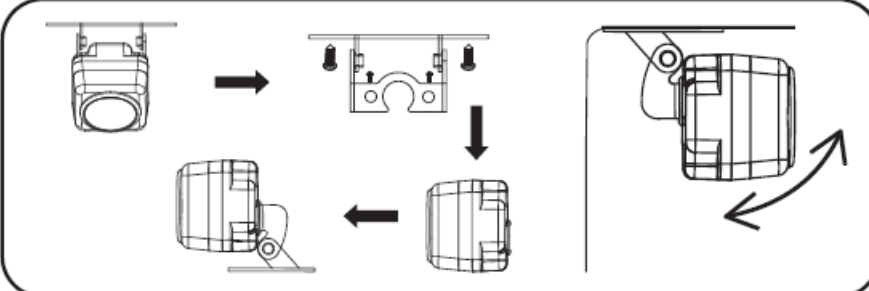

- Ground the wire through the exterior body of the vehicle and keep the connection intact.

INSTALLATION LOCATION

Attention

- Remove protective film from the camera lens before use.
- Take extra precautions when setting up the connection near the petrol tank and wires.
- Connect Red Wire with (+) reverse light.

TYPE 1 Tail Light	1 Remove one side of the reverse light socket from its housing then remove the bulb from its socket. 	2 Connect the reverse light power cable to the camera, screw the housing & camera back into position with a screwdriver. 
TYPE 2 Hatch Handle	1 Use a screwdriver to remove the original hatch handle 	2 Mount the camera where the original hatch handle used to be 
TYPE 3 Car Plate	1 Remove the rotating mount before installation. Drill an access hole for the camera cables 	2 Mount the camera onto the access hole & secure it in position with 3M tape/ screws 
After Installation Adjust Viewing Angle		

Remarks

1. Pictures are for illustration purposes only, see the actual vehicle for accurate installation location.
2. Ensure the diameter of the hole size is correct before drilling.
3. Ensure the drilling process does not harm the components of the vehicle.

4. Assign a mounting location that will not obstruct the camera view.
