- **Second step:** power on again,
- **Third step:** Long press  for 5 seconds to match the code, the ceiling light flashes once and the pairing is successful.

3. How to cancel the pairing between the remote control and the light?

- **First step:** power off for 10-20 seconds,
- **Second step:** power on again,
- **Third step:** long press  for 5 seconds, the ceiling light flashes twice, and the pairing is canceled successfully.

PRECAUTIONS

Precautions Before Installation

- 1. Power off before installation.
- 2. Do not exceed the rated voltage.
- 3. Do not install it on surfaces that are not stable or deformed.
- 4. Do not install it on or above the surface with high temperatures.
- 5. Please make sure that no gas, water, or electricity pipes and wires can be drilled through or damaged in your chosen mounting location.

Precautions During Installation

- 1. There must be no corrosive, explosive, or flammable materials around the lamp.
- 2. The user should connect the cable correctly, and the lamp should be installed by a qualified electrician.
- 3. Please pay attention to connecting the wires correctly, and make sure the cable connection complies with national regulations.
- 4. Please make sure that the lampshade is clear in case of low luminous efficiency.
- 5. Please make sure that illuminants are securely fixed during the installation.

Precautions About the Product

- 1. It is not suitable for dimmers and electronic switches.
- 2. The LED light source inside the lamp body can not be replaceable.
- 3. The lampshade cannot be opened.
- 4. Do not touch the light when it is running.
- 5. Do not look straight into the light source (illuminant, LED, etc.).
- 6. Do not let the children touch this light and packaging to avoid danger.
