Blndr B07Q2YKC22 Portable Rechargeable Blender

Product Information

Specifications

Maximum capacity: 420 ml

Power source: USB-C

- Preparing for Your First Blend
- Add your ingredients and liquid into the Blndr container, taking care not to exceed the MAX line (420 ml).
 Tip: Add the liquid first, e.g. milk, for a smoother blend.
- Twist the Blndr base clockwise firmly onto the container, ensuring the triangles on the base and container are aligned. Note: The Blndr will not operate if the base and container are not locked into place.

Using Your Blndr

- Double click the power ring to begin blending. The power ring will turn solid green. After 20 seconds, the Blndr will automatically stop operating.
- **Tip:** Start the Blndr at a slight angle (e.g., in your hands) to avoid the blades getting blocked. We recommend two blending cycles for the smoothest blends.
- After blending, flip the Blndr upside-down and twist the base counter-clockwise to remove it from the container. You can enjoy your nutritious drink straight out of the container, pour it into a glass, or screw on the Blndr lid for enjoyment later.

Care & Maintenance

- Caution: Always ensure your Blndr is switched off and unplugged before cleaning and when not in use.
 Tip: Clean your Blndr after each use.
- Fill the container with water, taking care not to exceed the MAX line (420 ml). Add a drop of soap to the container.

- Double click the power ring to begin a blend cycle.
- Once the cycle is complete, empty the water from the container and rinse before drying with a damp cloth.
- Caution: Do not use solvents and/or detergents to clean your Blndr. Do not immerse the Blndr base into water or any other liquid. Do not touch the blades, as these are very sharp and could cause injury.

Safeguards

- Do not put hot liquids or carbonated beverages into your Blndr.
- Do not let food sit in your Blndr for prolonged periods of time.
- Do not blend stone fruit in your Blndr unless pits/seeds have been removed.
- Do not put any non-food items into your Blndr for the purpose of blending.
- Keep your Blndr and charging cable away from heated surfaces.
