Important Safety Information

- DON'T use the headphones at a high volume for any extended period. To avoid hearing damage, make sure to use your headphones at a comfortable, moderate volume level.
- DON'T use the headphones during any activity requiring your full attention, e.g., while driving, riding a bike or crossing streets.
- Keep the headphones, accessories and packaging parts out of reach of children to prevent accidents and choking hazards.
- Always keep the headphones dry and DON'T expose it to extreme temperatures (hairdryer, heater, extended exposure to sunlight, etc.) to avoid corrosion or deformation .
- DON'T use the headphones if you feel obvious discomfort, irritation or other adverse reactions.
WARNINGS

1. Charging cable: Only use charging cable of standard Micro-USB (5 feet).
2. USB wall charger: If you use a USB wall charger for charging, make sure its output DC voltage should be 5V-5.5V, and its output current should exceed 500mA.

Charging the battery

The built-in battery is rechargeable and non-detachable. DON'T try to replace the battery on your own.

1. Turn off the headphones before charging.
2. Plug the small end of the included USB cable into the charging connector on the right earcup. Plug the other end into a computer or USB wall charger. When charging, the red light stays on.
3. Allow 2.5 hours for a full charge. Once fully charged, the light will turn to blue.
