### User Manual

**Bluetooth HiFi Headset**  
**Model: R+**

### Security Precautions

**Security Precautions:** In order to have a proper and safety use of the headset,, please read this user manual in detail and save it.

Be sure to aware the following guidelines when using your headset.

1. Should adjust reasonable volume and time when using the headset.
2. Please stop using the headset W there is any danger lo ensure your safety.
3. Be careful not lo tum the volume so high lha! you can~ hear anything around you. If there is a tinnitus or the volume is too high, please reduce the volume.
4. Please avoid using headset lo listen lo music, make or receive calls to avoid distraction while driving.

5. Put this product and its accessories somewhere out of the reach of children, to avoid inappropriate use by children which may cause a fatal danger.
6. Should avoid water entering the headset during grooming, which may cause damage to the sound quality or the headset
7. Stop using the headset when you feel obvious discomfort, irritation or have other adverse reactions.
8. The headset should not be stored or used at temperatures below -15°C (5°F) or above 55°C (131°F) which may shorten headset or battery life.

#### **Charger and battery:**

Please check whether the USB charging cable is original or not before charging the Bluetooth headset.

**Warning:** Should use the original charging cable to charge for the Bluetooth headset, otherwise it may damage the Bluetooth headset

#### **Charging:**

This headset uses a non-detachable built-in Li-Polymer rechargeable battery. Do not attempt to remove the battery from the headset in order to avoid damage to the headset.

1. Before charging, make sure the headset is switched off.
2. Plug USB cable into the charging port of headset; plug other side of USB cable into the USB charger or other charging device. Charging will start and the red light remains bright on the headset
3. The headset takes approximately 3 hours for fully charged, blue light remains bright or red light switches off after charging completed.

#### **Overview of R+ Bluetooth Hi Fi Headset:**

#### **R+ Bluetooth Hi Fi Headset in the box:**

- 1pc Bluetooth headset
- 1pc 3.5 mm audio cable
- 1pc USB charging cable
- 1pc Pouch
- 1pc User's Guide

**Switch on/off:**

1. Press the MF button once, the headset will enter to the pairing mode, the red and blue light blink alternately.
2. Keep pressing the MF Button for around 4 seconds until you hear the beep sound. Then the purple light blinks and the headset is turned off.

**To pair the headset with your mobile phone:**

1. Keep distance of the headset and mobile phone (or other device needed to be connected) within 1 meter. The closer, the better.
2. Switch on the headset and ensure that the headset enters into pairing mode. The red and blue lights blink alternately.
3. Switch on Bluetooth search function of your mobile phone or other device needs to be connected. The mobile phone will display "R+" .
4. Select "R+" , your headset will be automatically connected to your mobile phone, the blue light blinks .

**Attention:** Double-click the MF Button when the headset is in pairing mode, then the pairing list can be cleared. Generally, pairing time of headset is limited to 60 seconds, if pairing remains unsuccessful after 60 seconds, your headset will be switched off automatically. If failed, please retry steps 1 to 4 again.

**NFC connection:**

1. In order to smooth the NFC pairing procedure, we suggest to clear all pairing memory before NFC pairing(Under headset pairing mode(red and blue light blinks), double click MF Button to achieve it).
2. Take the NFC-enabled phone close to the NFC in the side of headset(the Bluetooth of headset should be turned off), after hearing the sound of mobile phone, the headset will be turned on. After 2-3 seconds, the headset enters into pairing mode, when you connect firstly, mobile phone will pop a dialog window, selecting "yes" , the mobile phone and headset will connect automatically.
3. Take the NFC-enabled phone close to the NFC in the side of headset again. The headset and phone will be automatically disconnected.

**Attention:**

1. When you will operate NFC function, please ensure NFC of mobile phone is open, but Bluetooth headset has no need to boot.
2. The NFC operation of mobile phone and Bluetooth headset takes time, Please don't connect via NFC again before Bluetooth function of mobile phone and Bluetooth headset had completely switched off or on.
3. Please make sure your phone supports this function. Android 4.1 or higher version can directly achieve this function. As for version 4.0, please go to the official website of the Bluedio ([www.bluedio.com](http://www.bluedio.com)) to download the NFC applications and install (Please according to each phone software installation method for installation)

#### **To pair your headset with two mobile phones:**

1. Keep distance of the headset and mobile phone 1 (or other device need to be connected) within 1 meter when pairing. The closer, the better.
2. Switch on the headset and ensure that the headset enters into pairing mode. The red and blue lights blink alternately. Turn on phone 1 and pair it with the Bluetooth headset "R+".
3. Turn off the Bluetooth of mobile phone 1 and switch off the headset. 4. Switch on the headset and ensure that it enters into pairing mode again. Then turn on phone 2 and pair it with the Bluetooth headset "R+".
4. Turn on the Bluetooth of mobile phone 1, connecting the paired headset "R+". The headset connects with two mobile phones at the same time.

#### **Disconnect the headset with your mobile phone:**

- Switch off the headset
- Or switch off the Bluetooth function of your mobile phone.
