**User Manual**  
**Model:Bluedio TMS**

### Headphone Overview

#### Operation Instruction;

##### Power on/off:

Toggle the Bluetooth boot key to control the on/ off.

##### Bluetooth pairing:

1. Headphones will automatically enter pairing mode after starting up.
2. Start the Bluetooth function of the mobile phone, search / add Bluetooth devices, and select • T Monitor S' from the searched Bluetooth devices ( some devices need to enter the password "0000" ).
3. Headphones that have been successfully paired will automatically enter the re-connection mode after they are

turned on, and will automatically connect with the devices that have been successfully paired last time.

**Music control:**

The user can control music pause/play, volume up/down and next song/last song music switching through the mobile phone.

**Turn on ANC Active Noise Reduction:**

Toggle the ANC active noise reduction switch, the green indicator lights up and the noise reduction function takes effect.

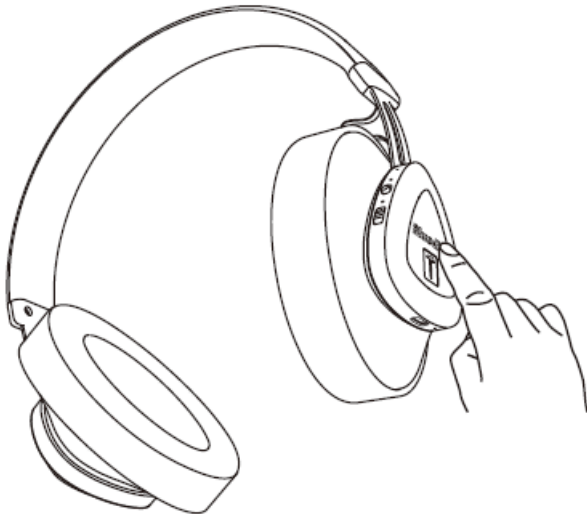

**Smart Play;**

When playing music, remove the Headphones and automatically pause the music, then put on the headphones and resume playing the music.

**Calling control:**

When calling, the finger taps the right shell of the earphone twice to answer the call.

Tap the right side of the headset twice again to hang up the call. Or use your phone to reject calls/ answer calls/ hang up calls.

**Charging the headphone:**

Switch off the headset before charging, and use standard charging cable to connect the headphone or wall charger, when it is charging, LED light remains red.

Allow 2 hours for full charging, once fully charged, LED blue light stays on.

**Line-In music playback:**

Connect the headset with your mobile phone and computers via 3.5mm Type-C audio cable to play music.

**Note:** Please turn off the headphone before using this function. (audio cable is not provided, if you need it, please order one from Bluedio official purchase channel.)

**Line-out music playback:**

Connect headphone 1 with phone via Bluetooth, then connect headphone 1 with the headphone 2 with 3.5 mm Type-C audio cable to play music.

**Note:** headphone 2 should support 3.5 mm audio connection. (audio cable is not provided, if you need it, please order one from Bluedio official purchase channel.)

**Purchase verification**
