COM-0161 Daybed with Sun Canopy

Collapsible day bed

SAFETY NOTICES

- Keep the packaging material and the transport bag away from children and animals. There is a danger of suffocation.
- The product is not a toy! Parents and other people in supervisory capacities should be aware of their responsibility because, due to children's natural instinct for play and desire to experiment, it is foreseeable that situations and behaviour will occur for which the product is not constructed.
- Do not rock back and forth excessively in the day bed. The product could tilt over to one side.
- When you set up the product, make sure there is sufficient space and protect any delicate floors with a suitable underlay on the floor.
- Take down the sun canopy in a breeze or if squalls are approaching because the sun canopy only has a limited level of wind safety.

- Do not allow the product to flutter in the wind because otherwise the product could be damaged.
- Remember to also use other sun protection (UV-proof clothing, sunscreen with SPF etc.).
- Before you use the product, check whether it has been assembled correctly and the day bed and the sun canopy is suspended correctly.
- Check the product for any damage and wear on a regular basis!
- Protect the product from flames, persistent moisture, excessive wet conditions, extreme temperatures and impacts.
- In extreme weather conditions (e.g. storm, hail) or if the product is not used for an extensive period of time, store it in a dry, protected place.
