Blushield Phi Series Φ2 Plugin Distributor Portal

Product Information

Some people report that within the initial first few days after installing the 02, they feel low in energy or tired. This is a harmless transient condition and will pass. This is the body adapting to a new environment. Persist with this unit it passes. Older persons who have poor health may take longer to adapt, this is a normal process as the body adapts to a new environment. The 02 does not remove EMF, nor does it modify EMF. Using an EMF meter will not indicate any change in the environment.

After you install the 02, the numbers on any EMF meter will not alter, as their sole purpose is to measure electromagnetic fields.

- DOES NOT interfere with wireless devices
- DOES NOT block any mobile phone or Wi-Fi signals
- DOES NOT interfere with pacemaker use
- DOES NOT cause electronic devices to stop working

Usage Instructions

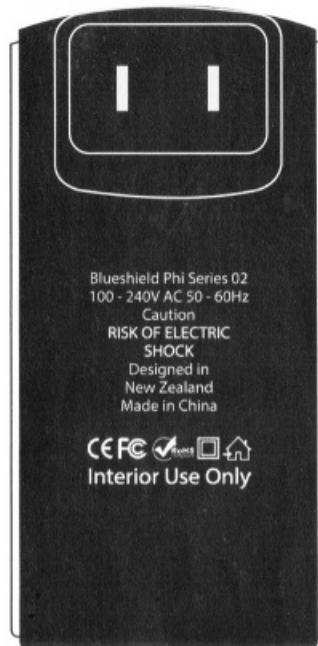

Select a suitable place to plug in the 02. Preferably, plug the Φ2 in a dedicated power socket in a central area within your home or office. The Phi Series Plugin Φ2 protects people within a 45-meter radius from the plugin. This model is suitable for general use and will protect the user from the side effects of 5G.

Precautions

The Φ2 is strictly for interior use only. It carries a warranty for a period of one year. This covers factory defects or faults. The warranty does not cover misuse, modification, neglect (water damage), scratches or opening of the case. The warranty does not cover wear and tear on the plug or damage to the plug. If a claim is made, all postage costs are to be covered by the customer. A Blushield distributor will decide whether to repair or replace the product, depending upon the fault.

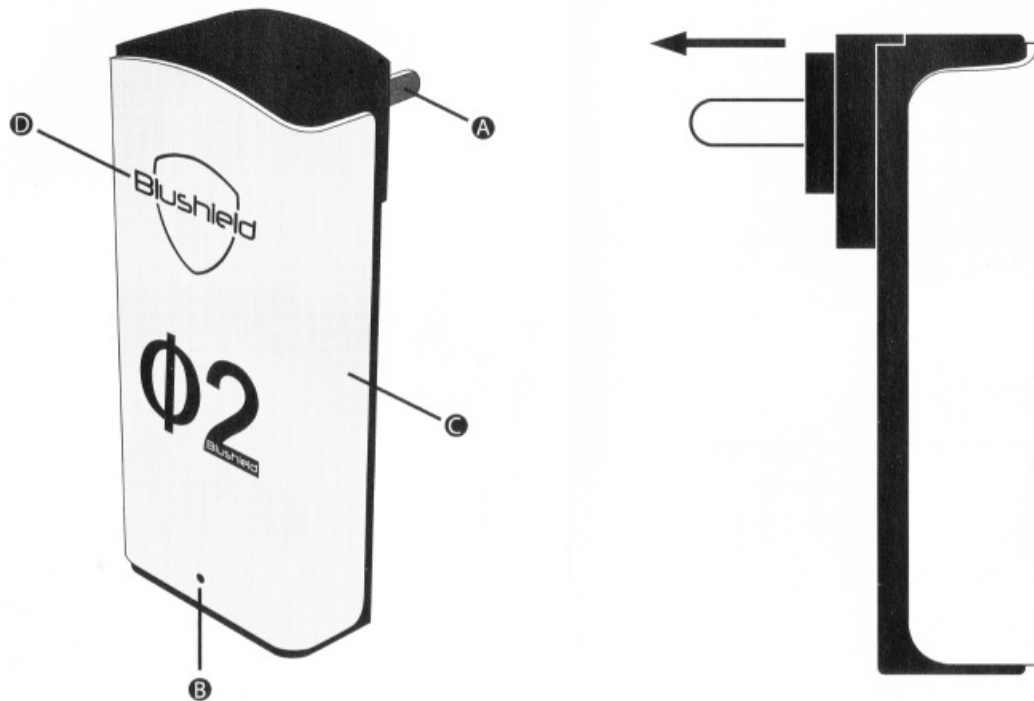

CAUTION RISK OF ELECTRIC SHOCK: For interior use only. Do not use in damp or humid areas.

- DO NOT place the Φ2 in damp areas or bathrooms, as there may be a risk of electric shock
- DO NOT use force to insert the plug into the socket
- DO NOT attempt to modify or open the case, this will void the warranty and you may risk electric shock.

FAQ

- **How long does it take to adapt to the Φ2?**
 - Adaptation time can vary, but any initial low energy or tiredness is typically a harmless and transient condition that will pass.
- **Does the Φ2 interfere with electronic devices?**
 - No, the Φ2 does not interfere with wireless devices, block mobile phone or Wi-Fi signals, interfere with pacemaker use, or cause electronic devices to stop working.
- **Can the Φ2 be used outside?**
 - No, the Φ2 is designed strictly for interior use and should not be used in damp or humid areas to avoid the risk of electric shock.
- **What should I do if I have an issue with my Φ2?**
 - Contact the distributor for support. If a warranty claim is made, postage costs are covered by the customer, and the distributor will decide on repair or replacement based on the specific issue.
