How To Mount The Camera

Steps:

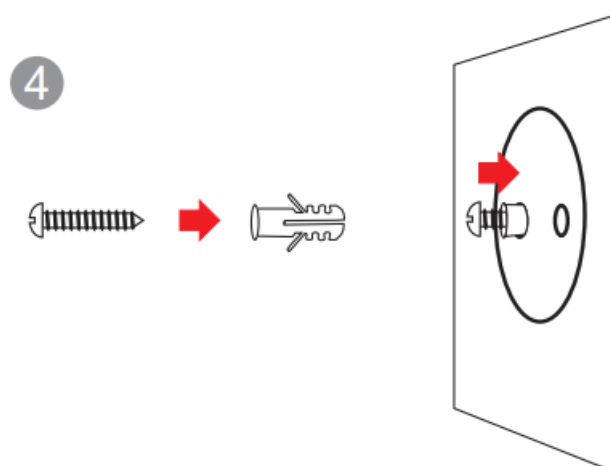

1. Choose where you want to mount the camera, ceiling mount, or wall mount.
2. Tear off the location sticker and stick it to the location you choose

3. Drill holes at the location of the screw holes on the sticker

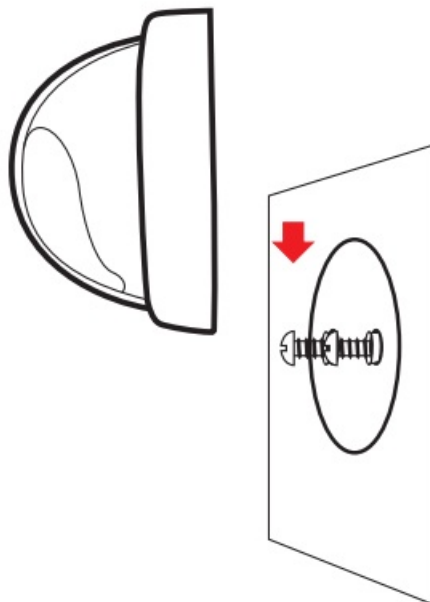

4. Put the rubber plug into the 2 screw holes, screw in the screws. Keep part of the screw above the surface

5. Align the camera with the 2 screws on the wall, rotate the camera clockwise slightly to fix the camera.
