How to Connect boAt Wave Call Smartwatch to Phone: Manual and Settings

The boAt Wave Call Bluetooth Calling Smart Watch is a versatile and feature-packed device that can be connected to your phone for seamless communication and activity tracking. This user manual provides detailed instructions on how to connect the watch to your phone, charge it, and navigate through its various functions. The manual also includes information on syncing the watch with the boAt Wearable app, customizing watch faces, and troubleshooting common issues. The Wave Call smartwatch comes with a USB magnetic charging cable, user manual, and warranty card. It is important to note that the watch must be charged before initial use and should be synced with the app at least once a day to avoid data loss. The manual also includes safety and product information, including warnings about battery use and health considerations for those with pacemakers or sensitivity to blinking light sources. Whether you're using the watch for fitness tracking, Bluetooth calling, or simply keeping up with notifications, this manual will provide you with all the information you need to get started.

FAQS

Call Bt function not showing up in BT settings?

Connection 1stly app with the watch, then connect the watch with separate Bluetooth. Like a headphone connection.

Which app we have to use to connect the watch?

boat wearables app from the Google Play store. But despite any app the performance of the watch will remain pathetic.

Does it suit for boat wave-style call?

Yes but the connectivity is worst it disconnects frequently and doesn't connect again you will have to reset the watch again and again and clear app data also customer service is not good

Bluetooth is not connected in watch .what to do?

Put Bluetooth on, on both devices to pair it. Then only you can use the Bluetooth call facilit. If you cannot pair it with your phone, then the watch is not working. Please talk to customer care.

Can I answer the calls without using Bluetooth headphones?

Yes, you can pick up a call and dial a call with a touch screen or with a speaking contact name. And the watch has a speaker and mic you do need a mobile in your hand. All messages are read in the watch and calling and playing music in the watch, etc…

How do I enable GPS?

Turn your phone's Bluetooth and GPS on. Disable battery optimization.

How do I connect to my phone?

Download the boAt Wearable app on your phone Available on both App Store (iOS 12.0 and above)& Google Play store (Android 6.0 and above)

Can I use the watch without connecting to my phone?

Yes, you can use it as a normal watch with basic functions. However, you will not be able to use all features of your Wave Call seamlessly without connecting with your phone.

When bt calling is enabled watch is acting like a speaker to the phone. if we play video on a phone sound is coming from the watch. how to stop this?

Yes, you can go to the Bluetooth section, you will find call Bt device, click on this and you will see, calls and media, disable the media. And this will no longer happen.

Does this watch have silent mode……..if not then how could we make watch when a call is coming

No, this watch does not have silent mode .when you receive any call the ringtone function is not there in this watch only vibrates when the call arrives.

How to sync or save contacts in the watch?

Go to the Boat Wearables app on your mobile. Choose the contacts option, select contacts, and click on ok. It will sync the contacts to the smartwatch.

Is this watch waterproof?

Yes with the Sp68 sensor

Can I receive calls from my mobile to this watch?

Yes definitely. But mobile pe kisi ka call ana chahiye

How many days does it provide a warranty?

It's a duplicate watch packed inside the original packet

Can I play music on this watch?

Yes you can play songs and to be very honest sound quality is excellent but not sure about battery consumption during music
