Then press and hold the Control key and click the touch pad.</p>

Features Touch pad gestures Cleaning and maintenance

In order to make your keyboard awesome and easy to use, please keep good use habits and pay attention to protecting the keyboard.

Keyboard and cover care

The keyboard is relatively light and thin. Please be careful not to use it on uneven surfaces to avoid bending the

keyboard. Do not apply the liquid directly on the keyboard. Use a lint free cloth dipped in alcohol or mild soapy water to wipe the keyboard and shell for maintenance. Clean your keyboard cover in this way often to make it look great.

Battery maintenance

Operating temperature: the operating temperature of the keyboard is 0 ° C~35 ° C. Lithium battery is very sensitive to high temperature, so keep its surface away from the sun and do not put it in a hot car.

Charging at any time: You can charge the battery at any time even its power is not zero. However, do not charge for a long time, which will reduce the battery life.

Troubleshooting

About Connections

The keyboard only supports Bluetooth connection. Confirm that the keyboard and tablet are paired and connected before use. If the keyboard has the connection delay or input delay:

1. Fully charge the keyboard for 3-4 hours.
2. Delete all Bluetooth connections on the tablet, eliminate signals interference, turn off the Bluetooth function, and restart the tablet.
3. Close and open the keyboard, and press “Fn+C” to reopen the keyboard Bluetooth.
4. Open Settings – Devices- My Device, find the “Bluetooth Keyboard” and click to connect.

Use of touch pad

Before using, make sure the touch function is turned on. If the cursor moves randomly, use a lint free cloth dipped in alcohol or mild soapy water to wipe the touch pad. Keep your hands dry during use to avoid incorrect gestures recognized by the touch pad.

Due to the upgrade of the system version or special customization of the APP program, it is normal that some shortcut keys cannot be used due to different functions. Please refer to the product details and function introduction, or consult the merchant customer service
