Troubleshooting

Problem	Solution
Speaker does not charge	1. Please use 5V/2A charger to charge the speaker, or try another charging source or cable. 2. If your speaker has been exposed to high or low temperatures, let it return to room temperature and then try charging again. 3. If you have not used it for a long time or the battery exhausted, please charge it for 20 minutes to activate the battery. 4. Please charge it every three months if you do not use it for a long time.
Speaker does not connect with mobile device	1. On your device: – Disable and then enable the Bluetooth feature. – Delete your speaker from the Bluetooth list on your device, Connect again (see page 06). 2. Connect a different device. 3. Clear the speaker pairing list (Press and hold the "M" button to reset it). Connect again.

Problem	Solution
No sound or the volume abnormal	1. Check the volume setting of the mobile device 2. Reduce the volume to minimum on your speaker, and then increase it to maximum. 3. Use a different music source. 4. Connect a different mobile device
Stuck in Bluetooth mode while playing	1. Make sure that the mobile device is within the effective transmission range of the Bluetooth speaker (18m/60ft), and that Bluetooth has been enabled on it. 2. Make sure there are no obstacles between the speaker and the device, or no interference from other wireless signals.
Cannot be played in TF card mode	1. Refer to the user manual to confirm if it is in TF card playback mode. 2. Make sure the audio files in the memory card are supported by the speaker.
The speaker can't be operated	Press and hold the power button for 10 seconds to force shutdown.
