Electrical Connection

1. Remove cover, install cable clamp (if desired), and feed the interconnecting cable into the electrical box.
2. Make audio connections to the "T" and "R" leads and the 24V DC connections to the "+" and "-" leads.
Note: The speaker will also work properly if the "+" and "-" connections are reversed.
3. Secure all mechanical connections and re-install the cover.
4. Adjust volume control using recessed screwdriver adjustable volume control located on the ceiling grille. Ceiling Installation 2ft. x 2ft. Tile Space Drop ceiling speaker into space (crossbar not necessary). 2ft. x 4ft. Tile Space Cut ceiling tile to 23- 3/4". Place the speaker in the ceiling with the tile support rail crossbar facing the ceiling tile opening. Drop in the tile.

Ceiling Installation
