Installation

1. Install the camera on a flat surface.
2. Or use the included mounting bracket to fix the camera to a clean surface.
Connection

Connect the camera to the display

Power on the camera and the display and then the camera will connect to the display automatically.

Note: If the connection to each other is not successful the first time, press and hold the reset button on the back of the camera and reconnect the monitor after the second beep of the camera. The connection is distance limited, so make the distance between the camera and the display is no more than 1000ft.

Disconnect the camera to the display:

1. Press Menu button on the display screen, and select ⚙ > Camera Management.
2. Long press the OK button on the display screen to release the binding.

Reconnect the camera to the display:

1. Press the Menu button on the display screen, and select . ⚙ > Camera Management
2. Long press the camera pairing button until you hear the prompt tone.
3. Press the OK button on the display screen to start pairing.

NOTE: If you have problems with connection, please feel free to contact **admin@boifun.net** for one-on-one customer service guidance.

2. Connect the camera to the App

The camera can be connected both to the display and the App. Generally, it is connected to the display by default.

Follow the steps below to connect the camera to the App:

1. Make sure the Wi-Fi network is a 2.4 GHz network, as the camera doesn't support 5 GHz Wi-Fi.

2. Download the **BoifunCam** App on your phone. Register a new account to log in or log in directly.

3. Press the Reset button for five seconds until you hear the "BOOGU" beep, which means the camera has been reset, after 10-20 seconds, you will hear another beep and the red light of the camera blinks slowly.

4. Follow the step instructions on your smartphone to add the cam, and scan the QR code with your camera

Usage

1. Download

BoifunCam is available for both (OS and Android OS. Search the name "BoifunCam" in App Store or Google Play or scan the QR-Code to download the App.

Download the APP

http://qr.hotlnk.cn/79847667793

Note: A very small number of mobile phone models may not be compatible with BoifunCam.

We apologize for any inconvenience this may cause. If you encounter this situation, could you please send us your phone model by email? Our email address is admin@boifun.net. We will optimize the software in time, and we have prepared a backup software "CloudEdge" for you, which you can download and use from the Google Store or Apple Store. We would greatly appreciate your understanding and kindness!

2. Add device

Log in the BoifunCam, select "Add Device",then select wifi smart camera and add the smart camera to the App according to the screen tips (Make the smart camera close to the router when configuring).

NOTE:

1. If you have problems with BoifunCam, please feel free to contact **admin@boifun.net** for one-on-one customer service guidance

2. If you need to re-select the WiFi network, please press and hold the "RESET" button for 5 seconds, the device will restart, and the indicator will be flashing red.

Magical time with Boifun
