- **Current:** s900mA
- **Rated Power:** s4.5W
- **Tank capacity:** 180mL
- **Spray Volume:** 15-20mL/hr
- **Weight:** 90g
- **Input:** DC5.0V/2A
- **Size:** 171x75x101mm
- **Raw Material;** ABS/PP/PCBA
- **Standard sheet:** GB4706.1-2005

Product Contents

- AtomizerX1,
- Type-C cableX1,
- ManualX1

Note

- The maximum water volume of the water tank is 180 ml, and the water injection volume shall not exceed the maximum water level indication line, otherwise, the atomization effect will be affected or water leakage will cause damage to the machine.
- Please use the attached Type-C 2A power cord. If you use a substitute power cord, you must note that the current specification is 2a, otherwise, the atomization effect will be affected.
- Please fill the atomizer with purified water to avoid damage to the function of the atomizer due to impurities in the water, so as to achieve the best maintenance effect.
- During operation, the sound inside the water tank is the sound of atomization, which is a normal phenomenon.
