BOULT Dive+ Bluetooth Calling Smartwatch

Product Information

The product is a smartwatch that offers various features such as exercise tracking, phone calling, sleep monitoring, and heart rate monitoring. It supports IOS 9 and Android 5 or above operating systems. The user manual provides important notes and instructions for using the product.

Notes:

- The company reserves the right to modify the contents of this manual without any further notification. Some functions may vary in certain software versions.
- Before using the product, it is recommended to charge it with the provided cable for at least 2 hours.
- To use the product, you need to connect the APP for synchronization and set your personal information.
- The product is IP68 rank waterproof but not suitable for deep sea diving. It is also not resistant to hot water, tea, or other corrosive liquids. Using the product in such conditions will void the warranty and maintenance services.

Product Usage Instructions

How to wear

1. Wear the device on your wrist correctly, positioning it about one finger from the carpal area.
2. Adjust the device to a comfortable position. Refer to the picture in the manual for reference.

Tip: When using the heart rate monitor, wear the device slightly tighter.

How to download & connect to APP

There are three methods to download and install the APP:

- **A.** Find the QR code on the settings page of the watch. Turn on the watch, go to Settings > About > Download QR code, then scan the QR code to download and install the BoulFit APP.
- **B.** Scan the provided BoulFit QR code to download and install the BoulFit APP.
- **C.** Search for “BoulFit” in the App Store or Play Store to download and install the BoulFit APP.

Open the BoulFit APP and select “Add Device” on the device page. Follow the instructions on the screen to connect the device to the APP.

DIVE+

To connect to the BT call feature:

- For most Android phones: After the watch is connected to the APP correctly, a PAIR pop-up reminder will appear. Choose to pair with “Dive+_PHONE” to complete the connection.
- For all IOS mobile phones and some Android mobile phones: After the watch is connected to the APP correctly, go to the Bluetooth settings page of your mobile phone. Search for and select “Dive+_PHONE” in the Bluetooth list, then click to pair. The BT call feature can be used after pairing.

Operating Instructions

- **Quick Settings:** Slide down from the main page to access the shortcut page.
- **Main Menu Page:** Slide up from the main page to change the menu styles by double-clicking on the side button or changing it on the settings page.
- **Recent Features:** Slide right from the main page to enter the split-screen view. Press the side button or slide left to return.
- **Smart Features Page:** Slide right from the main page to enter the smart components page. There are 7 components. Click “+” to add features and long-press to delete.
- **Quick access to change watch faces:** Long-press the watch face on the main page and slide left or right to choose watch faces.
- **Power on/off:** Press and hold the side button for 3 seconds on the dial interface.
