BC03 Alarm Clock

Battery precautions

1. Do not use rechargeable batteries.
2. Use only alkaline AA batteries of the same or equivalent type.
3. Insert batteries with the correct polarity
4. Keep batteries away from children.
5. Dispose of exhausted batteries according to local legal requirements. Do not dispose them by throwing away with normal household rubbish.
6. Avoid short circuiting the contacts in the battery compartment and battery terminals.
7. Remove batteries from the unit if it will not be used for a long period of time.
8. Exhausted batteries should be removed from the battery compartment to prevent over-discharging, which can

cause leakage and may cause damage to the clock.

Battery installation

1. Insert 1xAA (1.5V) battery observing the correct polarity, as shown on the diagram.
2. Replace battery cover.

Time setting

Turn the TIME SET knob on the back of the clock in the direction of the arrow until correct time is shown. Only turn in the direction of the arrow to avoid damaging the movement. Alarm setting Turn the ALARM SET knob on the back of the clock in the direction of the arrow until the desired alarm time is shown. Only turn in the direction of the arrow to avoid damaging the movement.

Alarm function

To set the alarm, pull the button up via the back of the clock so that the green alarm bar is showing. To unset the alarm, push the button at the top of the clock so that the green alarm bar is not showing.

Snooze function

When the alarm is sounding, press down on the main body of the clock and the SNOOZE/LIGHT button at the base will be activated.

The alarm will be stopped and will sound again in ~4 minutes.

Light function

Anytime, press down on the main body of the clock and the integrated foot SNOOZE/LIGHT button at the base will be activated. The dial will be illuminated for ~5 seconds.
