BRAUN BC08 Alarm Clock

Product Information

The product is a clock that requires a single AAA size battery for operation. It has a battery compartment with a battery door that needs to be opened to insert the battery. The clock has a reset key that can be pressed with a pin to reset all values to default in case of a malfunction. The display turns on after a few seconds of inserting the battery. The product is compliant with the Waste Electrical and Electronic Equipment (WEEE) directive and should be taken to a local collection center for recycling.

Product Usage Instructions

1. **Getting started:**
    1. Remove the battery door.
    2. Insert 1xAAA size new battery into the battery compartment, following the indicated orientation.
    3. Press the reset key with a pin to reset the clock.
    4. The display will turn on after a few seconds.
    5. Close the battery door.
2. **Function keys:**
    - **TIME SETTING / NEUTRAL / ALARM SETTING switch:** This switch is used to toggle between different functions of the clock. Refer to the user manual for detailed instructions on each function.
    - **RESET key:** Press this key with a pin to reset all values to default. Use this in case of a malfunction.

If you encounter any problems with the product, please check your local service center at **www.braun-clocks.com** or **www.braun-watches.com**. Alternatively, you can contact the Braun helpline at +44 808 175 3235 (calls free within the UK) or +44 208 208 1833.

NOTE: The above information is provided in English. For information and instructions in German, please refer to the corresponding section in the user manual.

Battery precautions

1. Do not use rechargeable batteries.
2. Use only alkaline AAA batteries of the same or equivalent type.
3. Insert batteries with the correct polarity.
4. Keep batteries away from children.
5. Dispose of exhausted batteries according to local legal requirements. Do not dispose them by throwing away with normal household rubbish.
6. Avoid short circuiting the contacts in the battery compartment and battery terminals.
7. Remove batteries from the unit if it will not be used for long period of time.
8. Exhausted batteries should be removed from the battery compartment to prevent over-discharge, which can cause leakage and may cause damage to the clock.

Getting started

1. Remove the battery door.
2. Insert 1xAAA size new battery as indicated in the battery compartment, and press the "reset" key to reset the clock. The display will turn on after a few seconds.
3. Close the battery door.

Function keys
