BRiGADE MDR-641 Mobile Caddy Unit Reader

The MDR-641 Mobile Caddy Unit Reader is a device designed to read data from Brigade's MDR-641 Mobile Data Recorder. It is used to download and analyze recorded information, such as vehicle speed, location, and driver

behavior.

Product Usage Instructions

- 1. Ensure that the MDR-641 Mobile Data Recorder is installed in the vehicle and recording data.
- 2. Connect the MDR-641 Mobile Caddy Unit Reader to a computer using the provided USB cable.
- 3. Visit the Brigade Electronics website at www.brigade-electronics.com/product-support or scan the QR code on the device to access installation instructions in your preferred language.
- 4. Follow the installation instructions to install the necessary software on your computer.
- 5. Launch the software and connect the MDR-641 Mobile Caddy Unit Reader to the computer using the USB cable.
- 6. The software will automatically detect the device and prompt you to download the recorded data.
- 7. Follow the on-screen instructions to download and analyze the recorded data.
- 8. When finished, disconnect the MDR-641 Mobile Caddy Unit Reader from the computer and store it in a safe place.

For further assistance, please refer to the product support section of the Brigade Electronics website or contact their customer support team.
