**Brightever A60-13W C Non-Dimmable Bright Light**

**Launch Date:** April 24, 2022

**Price:** \$9.99

## Introduction

The Brightever A19 LED Light Bulb is a high-performance lighting option that is made to last and work well. The strong brightness of 1500 lumens and the color temperature of 5000K make it look like natural daylight, making the room bright and welcoming. This energy-saving bulb only needs 13 watts to give off the same amount of light as a regular 100-watt incandescent bulb. This helps cut down on energy use and power bills by a large amount. The Brightever A19 bulb lasts up to 25,000 hours, so it doesn't need to be replaced as often. This makes it a cost-effective choice for both homes and businesses. Its 280° wide beam angle makes sure that it covers the whole room evenly, and its high CRI of 90+ makes colors look more true to life. The Brightever A19 is great for many lighting needs because it is safe, eco-friendly, and easy to set up with its standard E26 base.

## Specifications

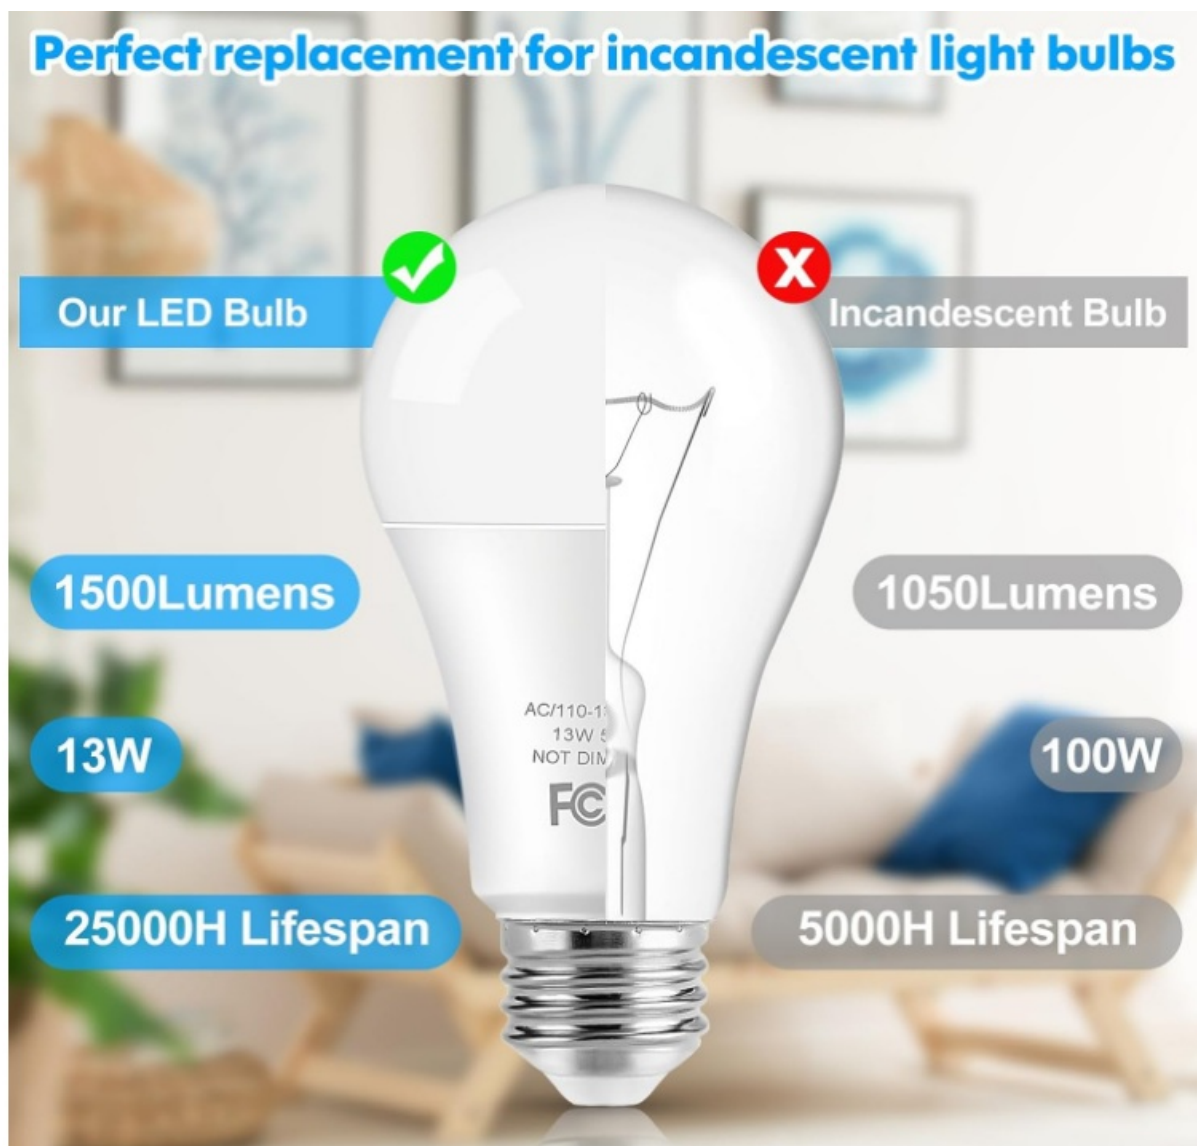

- **Brand:** Brightever
- **Bulb Shape Size:** A19
- **Bulb Base:** E26
- **Incandescent Equivalent Wattage:** 100W
- **Wattage:** 13W
- **Light Color:** Daylight White (5000K)
- **Brightness:** 1500 Lumens
- **Voltage:** 120V
- **Color Temperature:** 5000 Kelvin
- **Material:** Aluminum, Polycarbonate (PC)
- **Power Source:** Corded Electric
- **Average Lifespan:** 25,000 Hours
- **Color Rendering Index:** 90+
- **Unit Count:** 4 Bulbs
- **Dimensions:** 2.36"W x 4.57"H
- **Efficiency:** High

- **Control Method:** App
- **Connectivity:** Infrared
- **Indoor Usage:** Yes
- **Item Weight:** 6.4 ounces
- **Part Number:** A60-13W C
- **Batteries Required:** No

### Package Includes

- 1 x Brightever A60-13W C Non-Dimmable Bright Light
- 1 x User Manual

### Features

1. **Bright and Clear Light:** The Brightever A60-13W C gives off an impressive 1300 lumens of bright light, making it perfect for kitchens, offices, big rooms, or any other place that needs a lot of light. This brightness level gives your room a lot of light and color, making it great for both general and job lighting.
2. **Energy-Efficient:** The Brightever A60-13W C uses only 13 watts of power, which is the same as a regular 100-watt incandescent bulb. This makes it an energy-efficient pick. Because it uses 80% less energy than

incandescent lights, this LED bulb can help you save a lot of money on your electricity bill while still giving you the same level of brightness.

3. **Long Lifespan:** This bulb is made to last a long time; it can last up to 25,000 hours, so you won't have to change it as often. The Brightever A60-13W C is a hassle-free and cost-effective lighting choice that lasts for years and gives off reliable light without needing to be maintained all the time.
4. **Pure Daylight Color:** The Brightever A60-13W C gives off a bright, pure white light with a color temperature of 5000K. This color temperature works well in places that need to be clear and have a new, clean feel. It's great for reading, cooking, working, and anything else that needs bright, good light.
5. **Eco-Friendly:** The Brightever A60-13W C doesn't contain any dangerous materials, like mercury or lead, and it follows RoHS rules, so it doesn't add to environmental problems. Low energy use also helps lower your carbon output, making it a green and environmentally friendly choice.
6. **Durable Construction:** The Brightever A60-13W C is made from high-quality plastic so it will last a long time. The material makes sure that the bulb is both light and strong, which makes it less likely to break and more likely to work safely for a long time.
7. **Instant On:** In contrast to other lights that might need some time to warm up, the Brightever A60-13W C is bright as soon as it is turned on. Because of this, it is very useful, especially in places that need quick lighting.
8. **UL Listed:** The Brightever A60-13W C is UL Listed, which means it has been through strict safety tests and meets all the safety requirements for electrical goods. This makes sure that it is safe to use in a range of situations, including home and business settings.
9. **Great Quality Without flash:** The Brightever A60-13W C doesn't flash, strobe, or glare, so it gives off steady, smooth light that is easy on the eyes. Because it doesn't flicker, it won't hurt your eyes or make you feel tired, so it's great for long-term use in homes, offices, and businesses.
10. **Super Bright with High CRI:** The Brightever A60-13W C is very bright thanks to its modern LED technology, which gives it up to 1500 lumens of light. With a CRI of 90 or higher, the light that is made is correct, making colors look bright and true to life. Because of this, it's great for places where accurate color reproduction is important.

11. **General E26 Medium Base:** The Brightever A60-13W C works with the common E26 medium screw base. This makes placement easy and quick, since it fits into most common light fixtures, like table lamps, ceiling fans, chandeliers, and wall sconces.

12. **Efficient and cost-effective:** The Brightever A60-13W C can be used in place of regular 100-125W incandescent bulbs because it only uses 13W of energy. This cuts down on both the cost of energy and the number of times you have to change bulbs, which can save you up to 90% on your lighting bills.
13. **Wide Range of Uses:** The Brightever A60-13W C works great in kitchens, beds, bathrooms, living rooms, offices, garages, gardens, and other indoor and outdoor spaces. This product can be used in homes, businesses, and public places like hotels, restaurants, and bars.
14. **Go Green:** The Brightever A60-13W C is part of Brightever's effort to protect the earth. This LED bulb uses less energy, so you're helping to make the world better by lowering your carbon footprint. The light lasts a long time, which also helps cut down on waste.
15. With a 280° beam angle, the Brightever A60-13W C makes sure that light is spread out evenly over a large area. This widespread means that there are no dark spots, making bigger rooms more evenly lit.
16. **Breakproof:** The Brightever A60-13W C is made of high-quality plastic, so it can't break. This makes it safer and last longer than lights made of glass. This is a great choice for families with kids or pets.
17. **Super Bright LED:** The Brightever A60-13W C gives off 1500 lumens of powerful light from just 13 watts, so it lights up your space brightly without using too much power. As a result, it is a reliable and efficient way to light a lot of different areas.

## Usage

- **Indoor Lighting:** Ideal for use in living rooms, kitchens, dining areas, and hallways, providing bright, crisp

illumination.

- **Commercial Applications:** Perfect for office spaces, conference rooms, and retail environments that need efficient and reliable lighting.
- **General Purpose Lighting:** Suitable for general household lighting in spaces where consistent and bright lighting is required.
- **Fixture Compatibility:** Works well with most E26 socket fixtures.

## Care and Maintenance

- **Avoid Touching the Bulb Directly:** To prolong the lifespan, avoid handling the bulb with bare hands. If necessary, use a clean cloth when installing or removing the bulb.
- **Use in Proper Fixtures:** Ensure the bulb is installed in compatible fixtures and avoid using in damp or wet environments unless specified.
- **Dusting:** Periodically dust the bulb to maintain optimal light output. A soft, dry cloth is recommended for cleaning the exterior.
- **Do Not Over-tighten:** When installing the bulb, ensure it is screwed in securely but avoid over-tightening, as this may damage the socket.
- **Storage:** Store bulbs in a cool, dry place if they are not in use. Keep away from extreme temperatures.

## Troubleshooting

### Bulb Does Not Turn On:

- Check if the bulb is properly screwed into the socket.
- Ensure the fixture is receiving power.
- Test the bulb in a different socket to confirm if the issue is with the bulb or the fixture.

### Flickering or Buzzing:

- Since the bulb is non-dimmable, ensure it is not installed in a dimmer switch fixture.
- If the bulb continues to flicker, check for a loose connection or try the bulb in a different fixture.

### Dim Light Output:

- If the light seems dim, ensure the bulb is clean and free of dust or dirt.
- Check if the fixture or circuit is not overloaded with other high-wattage bulbs.

### Excessive Heat:

- Ensure the bulb is used in a properly ventilated fixture and is not in direct contact with materials that could block heat dissipation.

## Pros and Cons

Pros	Cons
High brightness (1500 lumens)	Non-dimmable
Long lifespan (over 25,000 hours)	Limited color temperature options
Energy-efficient design	May not fit all decorative fixtures

Warranty

The Brightever A60-13W C comes with a standard warranty of **2 years**, covering defects in materials and workmanship under normal use conditions. Always retain your purchase receipt to validate warranty claims.

FAQs

What is the wattage of the Brightever A19 LED Light Bulb?

The Brightever A19 LED Light Bulb consumes only 13 watts of energy, making it highly energy-efficient.

How much brightness does the Brightever A19 LED bulb provide?

The Brightever A19 LED bulb provides 1500 lumens of bright daylight white light, ideal for large spaces.

What color temperature does the Brightever A19 LED Light Bulb emit?

The Brightever A19 bulb emits a 5000K daylight white color temperature, offering bright, natural lighting.

What is the lifespan of the Brightever A19 LED bulb?

The Brightever A19 LED bulb lasts up to 25,000 hours, providing long-lasting lighting.

What is the equivalent wattage of the Brightever A19 LED Light Bulb compared to incandescent bulbs?

The Brightever A19 LED bulb provides the same brightness as a 100-watt incandescent bulb, while only using 13 watts of power.

What type of base does the Brightever A19 LED Light Bulb have?

The Brightever A19 LED bulb has a standard E26 base, making it compatible with most fixtures that accept this type of base.

How wide is the beam angle of the Brightever A19 LED bulb?

The Brightever A19 LED bulb has a wide 280° beam angle for even, diffuse lighting across large areas.

What is the CRI rating of the Brightever A19 LED bulb?

The Brightever A19 LED bulb has a high CRI of 90+, which ensures accurate and vibrant color rendering.

How does the Brightever A19 LED bulb help save money?

The Brightever A19 LED bulb saves money by consuming only 13 watts of energy, significantly reducing your electricity bills compared to traditional incandescent bulbs.
