**Bronkhorst FLEXI-FLOW Compact Mass Flow and Pressure Meter or Controller**

## Complete documentation

For a comprehensive instruction manual, hook-up diagrams and other applicable documentation about the FLEXI FLOW™ Compact, visit the Bronkhorst® product pages: [www.bronkhorst.com/flexi-flow](http://www.bronkhorst.com/flexi-flow) (or scan the QR code)

## Intended use

The FLEXI-FLOW™ Compact has been developed to measure and/or control mass flow rates and pressures of clean, dry, non-corrosive and non-toxic gases in a fluid system. The product is suited for general purpose indoor (dry) applications, like laboratories and machine enclosures, under the following constraints:

- **Ambient temperature:** 0 ... 50 °C
- **Operating pressure:** 16 bar (g) max.
- **Power supply:** 24 Vdc

Responsibility for the use of the equipment regarding its intended use, suitability for the intended application, cleaning and compatibility of process media with the applied materials lies solely with the user.

## Safety notes

- The product(s) described in this document may only be handled by qualified personnel who are familiar with combined fluid and electrical systems and who recognize the associated hazards (e.g. (high) fluid pressure, electric shock).
- The user is responsible for taking the necessary safety measures to prevent damage and/or injury while working with the equipment and process media (as described in the associated Material Safety Data Sheets).
- The equipment and its accessories must be used in accordance with their intended use, specifications and operating instructions.
- Opening the equipment is not allowed.
- If the product is defective or otherwise does not meet your requirements, please contact your Bronkhorst representative for assistance or advice.
